**VILLAGE OF FRANKLIN PARK**  
**DAVID A. GONZALEZ, COMPTROLLER**

August 16, 2024

To the Mayor, Village Board and Citizens of Franklin Park:

The Annual Comprehensive Financial Report of the Village of Franklin Park, Illinois for the year ended April 30, 2022, is hereby submitted as mandated by both local ordinances and state statutes. These ordinances and statutes require that the Village annually issue a report on its financial position and activity presented in conformance with accounting principles generally accepted in the United States of America (GAAP) and audited in accordance with generally accepted auditing standards by an independent firm of certified public accountants.

This report consists of management's representations concerning the finances of the Village of Franklin Park. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report.

To provide a reasonable basis for making these representations, management of the Village of Franklin Park has established a comprehensive internal control framework that is designed to protect the government's assets from loss, theft or misuse and to compile sufficient reliable information for the preparation of the Village's financial statements in conformance with GAAP. Because the cost of internal controls should not outweigh their benefits, the Village's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As duly authorized representatives of management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The Village of Franklin Park's financial statements have been audited by McConnell & Jones LLP, an independent licensed certified public accounting firm. The goal of the independent audit is to provide reasonable assurance that the financial statements of the Village of Franklin Park for the fiscal year ended April 30, 2022 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon audit, that there was a reasonable basis for rendering an unmodified opinion that the Village's financial statements for the fiscal year ended April 30, 2022, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

Management's Discussion and Analysis (MD&A) immediately follows the auditor's opinion and provides a narrative overview and analysis of the Village's basic financial statements and complements this letter of transmittal. Thus, this letter of transmittal and MD&A should be read and considered together.

VILLAGE GOVERNMENT PROFILE

General Description

The Village of Franklin Park, incorporated in 1892, is located in western Cook County, approximately 15 miles northwest of Chicago's Loop. The Village is bordered on the north by the Village of Schiller Park, and Chicago - O'Hare International Airport; on the east by the Village of River Grove and several Cook County Forest Preserve facilities; on the south by the Village of Melrose Park, the City of Northlake and portions of unincorporated Leyden Township; and to the west by the Village of Bensenville.

### Form of Government

The Village operates under a mayor/village board form of government in which the village president, or mayor, presides over a six-member board of trustees. The mayor and board of trustees determine the compensation of all village officers and employees, levy taxes, license businesses, appropriate funds, borrow money, and otherwise make all decisions relating to the finances and general affairs of the Village.

The mayor is also the chief executive officer of the Village and possesses the power to appoint officers, and to veto ordinances, resolutions and any expenditure. The village clerk is the administrative official responsible for daily operations in the Village Hall. The mayor, clerk and trustees are all elected at large to four-year terms.

### Village Services

The Village provides the following services: public safety (consisting of police, fire and emergency medical transportation), highways and streets, sanitation, health and social services, public improvement, planning and zoning, and general administrative services. Police protection is provided by the Village's police department. Paramedic and fire protection is provided by the Village's fire department. The Village currently employs approximately 134 full-time employees.

The Village owns and operates its water distribution and sanitary sewer collection system. Lake Michigan water is purchased from Chicago, while sanitary sewerage disposal service is provided by the Metropolitan Water Reclamation District of Greater Chicago. School facilities are provided by school district Nos. 81, 83, 84, 84½ and Community High School District No. 212. The Village is also served by Triton Community College District No. 504.

### Budgeting

The annual appropriation ordinance is the legal document under which Village resources are generated and expended. This document is based on an annual budget, which is developed at the department level, reviewed by administration and then becomes the subject of public hearings by the full board and/or its finance committee. Once the budget has been developed, the appropriation ordinance is derived from it and voted upon by the board in open session. It is the budget, however, that Village administration uses as its principal management tool and standard by which to measure financial performance.

## ECONOMIC AND FINANCIAL NEXUS

### Economic Base

Because of its proximity to Chicago – O'Hare International Airport and the presence of one of the nation's largest rail freight yards, the Village has long been an important industrial center; traditionally ranked the third or fourth largest in Illinois. Indeed, over the past ten years, industrial property has accounted for an average 54.0% of the Village's equalized assessed value (EAV): When combined with commercial and railroad property, the three classes have averaged 66.5% of the Village's EAV over the same period.

### Economic Condition

As an essentially blue-collar community, the Village is subjected to the more or less natural ups and downs of the national, regional and local economies. The recent Covid-19 pandemic has also caused a lot of uncertainty.

Specifically, the unemployment rate which was at 3.7% in CY19, rose to 9.3% as of the end of 2020, fell to 4.7% by the end of 2021, and fell slight again in 2022 to 4.6%.

There continue to be signs of improvement. The Village experienced an increase in assessed value from the 2019 levy to the 2020 levy of 8.3% as more projects were completed in FY20. Additionally, the Village's one percent non-home rule sales tax (all proceeds of which are dedicated to road repair), produced \$1.9 million in FY21, an increase from the \$1.5 million it produced in the previous four fiscal years.

### Village Finances

In FY22 the Village's general fund balance grew by \$9.1 million. This is attributed to increases in property tax revenue of \$2.3 million, income tax revenue of \$445,000, and charges for services of \$5.6 million. The General fund remains strong and stable at 32.7% of general fund expenditures. The Enterprise Funds increased in net position by \$2.9 million in FY22.

Despite these positive signs, there remains considerable challenges.

Infrastructure replacement and renewal, a nationally significant issue, continues to require a strong commitment, and will remain a challenge for the foreseeable future. Fortunately, Village management has shown its commitment by providing both plans and dedicated funding sources.

- The FY 2022 increase of water and sewer rates had continued to help the fund's net position and is projected to continue to provide sufficient cash flow to sustain a capital replacement program.
- The FY 2015 referendum-approved one percent non-home rule sales tax has generated \$2.4 million in FY22, \$1.9 million in FY21, and an average of \$1.5 million annually during the four prior fiscal years. It is fully dedicated to fund road renewal and replacement.

Having made a very good beginning at these infrastructure issues, pension funding remains a challenge, consuming an ever-increasing share of Village resources. The Village will continue to search for ways to manage the increasing required pension contributions.

Standard & Poor's awarded the Village's general obligation its first ever investment grade rating ("BBB") in 2011 and then upgraded its GO rating two categories in November 2012 (to "A-") and then to "A+" in August 2014, where it remains today.

#### THE FUTURE

The Village appears to be at the forefront, at least with respect to its local peers, in rationally addressing its infrastructure needs. Indeed, infrastructure renewal is and will be the major focus of Village management for some time to come.

In sum, those responsible for the Village's direction believe the new paradigm for municipal government of doing *more* with less. Accordingly, Village administration and the board of trustees are focused not only on cost saving measures, but also on the proper and appropriate role of Village government with an eye toward distilling services down to an optimal array.

#### ACKNOWLEDGEMENTS

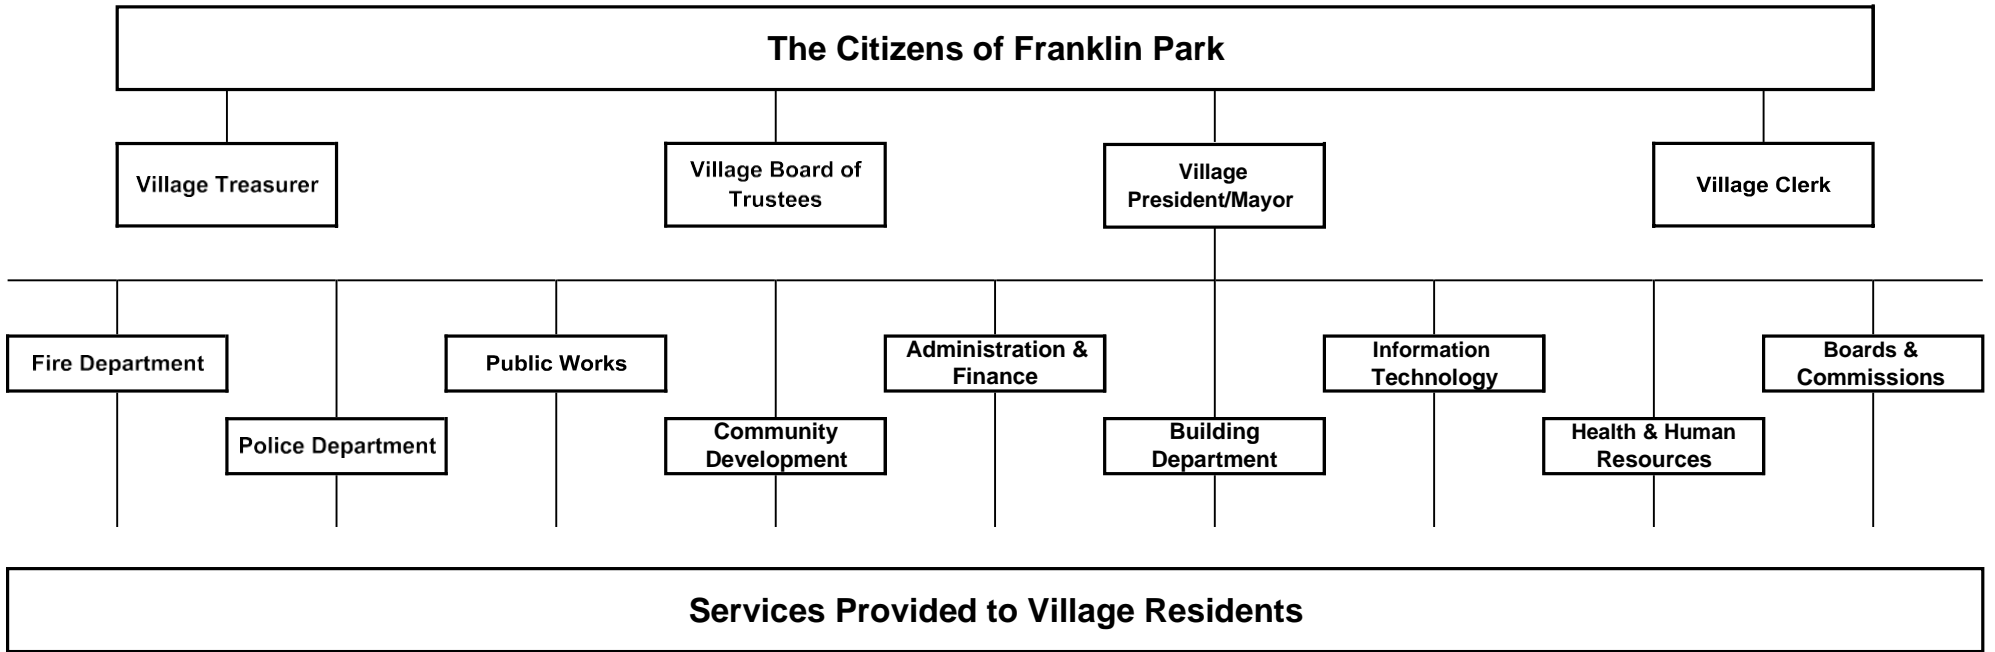

The preparation of this report would not have been possible without the efficient and dedicated service of the entire finance department. We also want to express appreciation to the Village President, Village Trustees, and all Department Heads for their support and encouragement in maintaining the highest standards of professionalism in the financial operations of the Village.

Respectfully submitted,

David A. Gonzalez  
Village Comptroller

## INDEPENDENT AUDITOR'S REPORT

To the Honorable President and  
Members of the Board of Trustees  
Village of Franklin Park, Illinois

### **Report on the Audit of the Financial Statements**

#### ***Opinions***

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the Village of Franklin Park, Illinois (the Village), as of and for the year ended April 30, 2022, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the Village, as of April 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### ***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Village and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Village's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Police Pension Fund or the Firefighters' Pension Fund, which represent all of the financial balances and activity of the pension trust funds. Those financial statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the pension trust funds, is based solely on the report of the other auditors.

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Village's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information, as identified in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary

# McConnell Jones

information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village's basic financial statements. The accompanying combining and individual nonmajor fund financial statements are presented for the purpose of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### ***Other Information***

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated August 16, 2024, on our consideration of the Village's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Village's internal control over financial reporting and compliance.

*McConnell Jones LLP*

**Village of Franklin Park, Illinois**  
**Management Discussion and Analysis**  
**April 30, 2022**

As management of the Village of Franklin Park, Illinois (the "Village"), we offer readers this narrative overview and analysis of the financial activities for the year ended April 30, 2022.

***Financial Highlights***

Among the more noteworthy changes during fiscal year 2022 are the following:

At the entity wide level:

- Assets employed in governmental activities plus deferred outflows related to pensions increased \$17.8 million, while liabilities plus deferred inflows increased \$8.1 million. This resulted in an increase in net position of \$9.7 million.
- Revenue supporting governmental activities increased by approximately \$9.9 million from fiscal year 2021 while expenses increased by approximately \$2.6 million.
- Assets employed in business-type activities plus deferred outflows related to pensions increased \$3.1 million, as liabilities plus deferred inflows increased approximately \$859,000. As a result, business-type activities net position was raised by \$2.3 million.
- Business-type revenue increased approximately \$794,000 from fiscal year 2021, while expenses increased approximately \$1.8 million.
- The Village's assets plus deferred outflows increased \$20.9 million, and total liabilities plus deferred inflows increased \$9.0 million. As a result, total net position increased by \$12.0 million.
- Total Village revenue increased approximately \$10.7 million, and total expenses increased approximately \$4.5 million.

These results are discussed further below. Meanwhile, at the fund level:

- General Corporate Fund assets increased \$9.9 million, while liabilities plus deferred inflows increased by \$763,000, resulting in an increase of approximately \$9.1 million in fund balance.
- Governmental funds' assets increased by \$13.3 million, while liabilities and deferred inflows increased \$1.9 million. Accordingly, governmental fund balances increased by \$11.4 million.
- General Corporate Fund revenue increased by \$11.6 million from fiscal year 2021 levels, while expenditures rose by \$3.2 million. A net increase in other financing uses of \$673,000 resulted in an increase of approximately \$9.1 million in fund balance.
- Total governmental funds revenue increased \$9.0 million, while expenditures increased by \$14.7 million. There was a net positive swing of \$11.3 million in other financing sources. These changes resulted in a fund balance increase of approximately \$11.4 million.
- Enterprise fund assets and deferred outflows increased by \$3.4 million, while liabilities and deferred inflows increased by \$432,000. Accordingly, net position increased \$2.9 million.
- Enterprise fund operating revenue increased \$741,000, while operating expenses increased by \$813,000, resulting in an operating gain of approximately \$1.7 million. After giving effect to approximately \$833,000 in net nonoperating expenses, a capital contribution of approximately \$429,000, and net transfers in of \$1.6 million, net position increased by \$2.9 million.

**Village of Franklin Park, Illinois**  
**Management Discussion and Analysis**  
**April 30, 2022**

***Overview of the Financial Statements***

The discussion and analysis provided here are intended to serve as an introduction to the Village's basic financial statements. The Village's basic financial statements consist of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also includes supplemental information intended to furnish additional detail to support the basic financial statements themselves.

**Government-wide Statements**

The government-wide financial statements are designed to provide readers with a broad overview of the Village's finances in a manner similar to a private-sector business. The statement of net position presents financial information on all of the Village's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Village is improving or deteriorating. The statement of activities presents information showing how the Village's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenue and expenses are reported for some items that will only result in cash flows in future fiscal periods (e.g., the cost of pension and other postemployment benefits).

Both of the government-wide financial statements distinguish functions of the Village that are principally supported by taxes and intergovernmental revenue (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Village include general government, public safety, highways and streets, public health, community development, and the building department. The business-type activities of the Village include providing water and sewage disposal, as well as garbage and commuter parking lot.

The government-wide financial statements include not only the Village itself (known as the primary government) but also the legally separate Franklin Community Fund for which the Village is financially accountable. Financial information for this component unit is reported separately from the financial information presented for the primary government itself.

**Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Village uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the Village's funds can be divided into the following three categories:

- **Governmental funds** - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in assessing a government's near-term financing requirements. The Village maintains 20 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenue, expenditures, and changes in fund balances (deficit) for the General Corporate Fund and the Downtown Franklin Avenue TIF Fund. Information from the Village's 18 other governmental funds is combined into a single-column presentation. Individual fund information for these nonmajor governmental funds is provided elsewhere in the report.
- **Proprietary funds** - The Village maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The Village uses enterprise funds to account for its water and sewage disposal activities, garbage collection, and commuter parking operations. Internal service funds are an accounting device used to accumulate and allocate costs internally among the Village's various functions. The Village uses internal service funds to account for its fleet of vehicles.
- **Fiduciary funds** - Fiduciary funds are used to account for resources held for the benefit of parties outside of the government. Fiduciary funds are not reported in the government-wide financial statements because the resources of those funds are not available to support the Village's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The Village's fiduciary funds include the pension trust funds.

**Village of Franklin Park, Illinois  
Management Discussion and Analysis  
April 30, 2022**

**Notes and Other Information**

The notes provide additional information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements. In addition to the basic financial statements and accompanying notes, this report also presents required supplemental information concerning the Village's progress in funding its obligation to provide pension and OPEB benefits to its employees. The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the required supplemental information on pensions and OPEB.

Total net position (deficit)	<b><u>\$ (59,768,470)</u></b>	<b><u>\$ (69,458,303)</u></b>	<b><u>\$ 28,498,019</u></b>	<b><u>\$ 26,223,245</u></b>	<b><u>\$ (31,270,451)</u></b>	<b><u>\$ (43,235,058)</u></b>

Total village assets plus deferred outflows grew by \$20.9 million (12.2 percent). Total village liabilities plus deferred inflows increased by \$9.0 million (4.2 percent). Accordingly, total net position increased by \$11.9 million, to negative \$31.3 million.

Governmental assets plus deferred outflows grew \$17.8 million (15.9 percent) due to an \$14.8 million increase in current and other assets, an increase of \$76,000 in capital assets, and a \$2.9 million increase in deferred outflows due to pension costs. The \$14.8 million increase in current and other governmental assets was due to large fluctuations in several categories:

- A \$13.6 million (72.7 percent) increase in cash is mostly attributable to an increase in the General Fund of \$9.2 million (228.1 percent) due to higher tax revenues. MFT Fund cash increased \$701,000 (59.3%) due to allotments from the Rebuild Illinois program that have not yet been spent. It is also due to higher property tax collections in two TIFs- DHL Seymour increased \$719,000 (52.8 percent) and Seymour Waveland increased \$614,000 (48.6 percent).
- Net pension asset increased \$2.1 million (73.1 percent).
- These were offset by a property tax receivable decrease of \$902,000 (9.4 percent) due more timely property tax distributions from the County in 2022 than in the prior year.

**Village of Franklin Park, Illinois  
Management Discussion and Analysis  
April 30, 2022**

Total capital assets increased by \$1.9 million (1.8 percent), the majority of which is due to the CIP additions for the ongoing Franklin Avenue project.

Liabilities plus deferred inflows flowing from governmental activities increased \$8.1 million (4.5 percent), as current liabilities grew by approximately \$337,000 (11.3 percent) and noncurrent liabilities plus deferred inflows grew \$7.8 million (4.4 percent).

Total current liabilities increased by approximately \$397,000, largely driven by a \$455,000 increase in accounts payable (15.6 percent).

Total noncurrent liabilities decreased \$6.8 million (3.6 percent), which was principally driven by drops in the OPEB liability of \$4.3 million (16.4 percent), bonds payable of \$3.5 million (86.3 percent), and \$1.0 million (100 percent) in other liabilities for IEPA funds distributed to the Village that had not yet been turned into official loans in the prior year. These increases were offset by a \$2.3 million (49.3 percent) increase in loans payable.

**Village of Franklin Park, Illinois  
Management Discussion and Analysis  
April 30, 2022**

Governmental activities revenue before transfers increased from fiscal year 2021 levels by approximately \$10.7 million, or 18.7 percent, attributable to several sources:

- Sales and income tax revenue increased by \$2.4 million (35.7 percent) due to higher distributions from the state. The income tax increase can be partially attributed to weekly unemployment allotments given by the state.
- Charges for services increased \$6.2 million (148.5%) due to more construction in the Village, resulting in increases in building and electrical permit fees of \$4.8 million.
- Intergovernmental revenue increased \$1.1 million (17.6%) due to higher state tax revenues.

Governmental activities expenses increased by approximately \$2.6 million (6.8 percent).

- Highway and streets expenses increased by \$679,000 (136.8 percent) due to higher street maintenance costs in 2022.
- Public safety expenses increased by \$1.7 million (7.2 percent) primarily due to higher GASB 68 pension expenses and higher pension contributions from the Village.
- Community development expenses increased by \$760,000 (or 53.7 percent) due to more development projects in fiscal year 2022 in the TIF districts.
- General government expenses decreased approximately \$834,000 (11.7 percent) largely due to higher legal fees and insurance costs.

***Financial Analysis of Individual Funds***

As noted earlier, the Village uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The focus of the Village's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Village's financing requirements. In particular, unrestricted fund balance may serve as a useful measure of a government's net resources available for discretionary use, as it represents the portion of the fund balance that has not yet been limited to use for a particular purpose by an external party. Uncommitted or unassigned fund balance provides further information about the resources that have not been constrained by either the board of trustees, or a group or individual that has been delegated authority to assign resources for use for particular purposes by the board of trustees.

**Governmental Funds**

Governmental fund revenue increased \$9.0 (20.8 percent) from fiscal year 2022 levels. For funds other than the General Corporate Fund, revenue decreased \$2.6 million (20.9 percent). This is attributable to a decrease in property tax revenue of \$1.9 million (20.9%), primarily within the TIF funds, and a decrease of \$1.2 million (81.2%) in grant revenue, mostly in the Capital Fund.

***General Corporate Fund Revenue***

The \$11.6 million (37.6 percent) General Corporate Fund revenue increase was due to several factors:

- Property tax revenue increased by \$2.3 (16.8 percent) due to an increase in the tax levies for the police and fire pension to help meet their annual required contributions.
- Income tax revenue increased \$445,000 (18.7 percent). The income tax increase can be partially attributed to weekly unemployment allotments given by the state.
- State shared revenue increased \$1.6 million (38.3%).

Charges for service increased by \$5.6 million (254.4 percent). The majority of this is from a \$4.8 million (847.4%) increase in building and electrical permit revenue due to more construction in the Village during fiscal year 2022. It is also due to an increase in ambulance user fees of \$707,000 (61.0%).

**Village of Franklin Park, Illinois  
Management Discussion and Analysis  
April 30, 2022**

*General Corporate Fund Expenditures*

General Corporate Fund expenditures increased by \$3.2 million (11.0 percent), with fluctuations in several areas from the prior year.

- Public safety increased by \$1.8 million (10.3 percent), which was largely a result of higher police and fire pension contributions of \$475,000 and \$389,000, respectively, in 2022 in order to meet the annual requirement determined by the pension actuaries. Also due to higher salary expenses for both the police and fire departments.
- Highways and street increased by \$1.2 million (50.1%), as a result of higher maintenance expenditures in fiscal year 2022.

*Other Major Governmental Funds*

- The Village presents one additional major governmental fund other than the General Corporate Fund, the Downtown Franklin Avenue TIF Fund. The Downtown Franklin Avenue TIF Fund fund balance increased by \$1,472 (0.1 percent) in fiscal year 2022.

**Enterprise Funds**

- Enterprise fund operating revenue increased \$741,000 (5.1 percent) from fiscal year 2021, while operating expenses increased by \$813,000 (6.4 percent), resulting in operating income of approximately \$1.7 million for fiscal year 2022. After giving effect to net nonoperating expenses, capital contributions, and transfers, the funds' collective net position increased by \$2.9 million.

*Enterprise Fund Revenue*

- Water and Sewer Fund operating revenue increased \$700,000 (5.3 percent) from fiscal year 2021. This was a result of an increase in water sales of \$465,000 and an increase in sewer sales of \$235,000, both due to fee increases for fiscal year 2022.
- Garbage Fund revenue rose by \$32,000 (2.8 percent). This was a result of an increase in collection fees netted with bad debt.
- Commuter Parking Lot Fund revenue increased by \$9,000 (61.1 percent). This was a result of more individuals needing to park their vehicles than during the previous year when there were Covid closures and stay-at-home orders.

*Enterprise Fund Expenses*

- Water and Sewer Fund expenses increased by \$812,000 (7.6 percent). Cost of water increased \$338,000 (10.1%) due to the rate increase from the City of Chicago as well as increased usage by customers of the Village. Repairs and maintenance expenses increased \$275,000 (11.2%) largely due to more repair needs in fiscal year 2022 to the Village's sewer system. Billing and administrative costs increased \$115,000 (7.3 percent) due to increases in health insurance expenses from fiscal year 2021 and higher salary costs in fiscal year 2022.
- The Village's Garbage Fund saw an expense decrease of \$12,000 (0.7 percent).
- Commuter Parking Lot Fund expenses increased by \$13,000 (58.4 percent), mostly as the result increased processing fees.

**Village of Franklin Park, Illinois  
Management Discussion and Analysis  
April 30, 2022**

***General Corporate Fund Budgetary Highlights***

Actual revenue was better than budgeted by approximately \$8.0 million (23.1 percent), while actual expenditures came in better than the budget by approximately \$991,000 (3.0 percent). Taken together with other financing sources being \$148,105 lower than the amount budgeted for and other financing uses being approximately \$100,000 over budget, this resulted in an overall positive variance of approximately \$8.8 million. Other financing sources budgeted were the transfer of funds of \$90,000 from the police seized account and \$550,000 for loan proceeds in the street department. No transfer from the 1505 was made, and the street department vehicles came in at \$491,895, so less proceeds than budgeted were received. Transfers out were also more than budgeted due to an additional transfer from the General Corporate Fund to the Downtown TIF Fund to keep that fund from having a loss for the fiscal year.

The majority of revenue categories came in higher than anticipated, exceeding the budget by approximately \$8.0 million (23.1 percent). This is largely attributable to the conservativeness of the 2022 budget due to the unpredictability Covid recovery would have on incoming revenue. Grants were under budget by \$962,000 due to the Village not using a portion of their ARPA funds in the fiscal year. Licenses and permits were \$229,000 under budget, \$94,000 of which was due to plumbing permits and \$47,000 was due to engineering review fees. The remainder of the difference was due to small variances across the board. Other revenue was under budget \$115,000, due to the sale of property being under budget \$270,000. This was offset by other items coming in slightly over budget.

Some of the positive revenue variances occurred in the following categories:

- Property taxes - approximately \$2.3 million (17.2 percent) due to higher-than-expected collections.
- Income taxes- \$626,000 (28.5%) due to the unemployment allotments from the state not being known at the time of the budget preparation.
- Municipal and non-home rule sales taxes combined were \$1.8 million (47.7 percent) over budget due to sales within the Village being higher than expected post Covid
- Personal property replacement taxes (Village and pension portions) were \$1.8 million over budget (161.7 percent) due to higher than anticipated allotments from the state as a result of high corporate income tax payments.
- Building permits came in over budget \$626,000 (28.5 percent) and electrical permits came in over budget at \$1.3 million over budget due to higher than expected construction in the Village during the fiscal year.

On the expenditure side many expenditures came in under budget, resulting in a net positive variance of approximately \$991,000 (3.0%). The most significant variance occurred in highway and street (approximately \$474,000, 12.4 percent) due to a delaying of street patching and crack sealing. Another large positive variance occurred in community development (\$396,000, 44.1 percent), reflecting the postponement of a property purchase and improvements to that property. Also coming in under budget were general government (approximately \$84,000, 1.3 percent), and the building department (approximately \$239,000, 23.1 percent). Departments that had expenditures over budget were public safety (\$118,000, 1.0 percent), which was due to pension expenditures being higher than budgeted and debt (\$95,000, 28.1%) which was due to a payment on the new vehicle lease not being budgeted for.

***Capital Assets and Debt Administration***

Assets deployed in governmental activities rose by approximately \$76,000. There was an increase of approximately \$2.1 million in construction in progress and an increase of approximately \$620,000 in vehicles and equipment. There were no asset deletions in the current year. Accumulated depreciation increased by \$2.6 million.

Business-type net capital assets increased by approximately \$1.8 million. Nondepreciable capital assets decreased \$8.9 million from construction in progress as the Reuters project was completed and became a depreciable asset as part of the water system. There were also approximately \$164,000 in additions of vehicles. There were no deletions for the year. Finally, accumulated depreciation increased by \$1.6 million.

For more detailed information regarding capital assets, see Note 4 to the financial statements.

At April 30, 2021, the Village had \$179,122,402 outstanding in total long-term debt, including \$150,307,217 in governmental activities and \$28,815,185 in business-type activities.

Net governmental debt decreased \$6.8 million, \$1.0 million of which is attributable to the decrease in the net pension liability and approximately \$2.5 million of which is attributable to the decrease of bonds payable for the year. The decrease in leases and loans payable was only \$30,000 as payments during the year were offset by a new lease. OPEB payable decreased \$3.9 million. Only compensated absences increased in fiscal year 2022, for approximately \$216,000.

**Village of Franklin Park, Illinois  
Management Discussion and Analysis  
April 30, 2022**

Net business-related debt increased \$207,000. Bonds payable decreased \$2.7 million due to payments on the 2014A bond as well as the refinancing of the 2013 Bond into the 2021A Bond. Loans payable increased roughly \$2.6 million due to new IEPA loan issuances. Leases payable increased \$126,000 due to a new vehicle lease. There was also a decrease of approximately \$370,000 in the net OPEB liability and an increase of \$31,000 in the compensated absences balances.

For more detailed information regarding the Village's debt position, see Note 5 to the financial statements.

***Economic Factors and Next Year's Budgets and Rates***

With more than half its tax base composed of industrial property, the Village is the one of the largest manufacturing centers in the state. This, combined with its essentially blue-collar character, makes it highly susceptible to economic cyclicity. It is not surprising then to note that the recent economic environment has had important effects on the Village over the past several years.

That said, there are several signs of improvement. Sales tax revenue, which, in fiscal year 2015, hit its lowest point in the previous 10 years, has rebounded over the past few years. Additionally, the Village's 1 percent non-home rule sales tax (all proceeds of which are dedicated to road repair) produced \$2.8 million in fiscal year 2022, an increase of \$861,000 over the \$1.9 million received in fiscal year 2021 and higher than the \$1.5 million that came in the four fiscal years prior to 2021.

The Village's manufacturing character is a strength. In addition, its location adjacent to O'Hare International Airport (O'Hare) and proximity to one of the largest rail yards in the nation has allowed it to recover more quickly as the economy has recovered. Furthermore, ongoing development at O'Hare holds several benefits for the Village, including a new tollway interchange that is expected to provide a significant boost to economic development activities.

***Requests for Further Information***

This financial report is intended to provide a general overview of the Village's finances and demonstrate the Village's accountability for the money it receives. If you have questions about this report or need additional information, please contact the Office of the Comptroller, Village of Franklin Park, Illinois at 9500 Belmont Avenue, Franklin Park, IL 60131.

The Village of Franklin Park, Illinois' police and fire pension funds issue separate financial statements that can be obtained by contacting the Office of the Treasurer at the above address.

**April 30, 2022**

<b>Fund Balances Reported in Governmental Funds</b>	<b>\$ 32,892,946</b>
Amounts reported for governmental activities in the statement of net position are different because:	
Capital assets used in governmental activities are not financial resources and are not reported in the funds	50,199,600
Unavailable revenues that are not collected soon after year end are not available to pay for current period expenditures and, therefore, are reported as unavailable revenue in the funds	52,269
Land held for resale does not represent financial resources and are not reported in the funds	2,953,938
Internal service fund is used to allocate fleet maintenance services to the various funds on a full accrual basis, so that the full costs are recognized and allocated to the various funds in the year that the costs are incurred. The assets and liabilities of certain internal service funds are included in governmental activities in the statement of net assets.	199,316
Investments in joint ventures are not financial resources are are not reported in the funds	521,435
Bonds payable, loans payable, and capital lease obligations are not due and payable in the current period and are not reported in the funds	(31,210,905)
Unamortized bond premiums and discounts associated with long-term debt payable are not reported in the funds	(1,569,355)
Deferred charges on bond refunding associated with long-term debt payable are not reported in the funds	(570,058)
Accrued interest is not due and payable in the current period and is not reported in the funds	(419,190)
Some employee fringe benefits are payable over a long period of years and do not represent a claim on current financial resources; therefore, they are not reported as fund liabilities:	
Employee compensated absences	(1,512,095)
Pension benefits and related deferred inflows and outflows	(88,472,247)
Retiree health care benefits	(22,834,124)
	(113,818,466)

**Fund Balances (Deficit) to the Statement of Activities**  
**Year Ended April 30, 2022**

**Net Change in Fund Balances Reported in Governmental Funds** \$ 11,382,590

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures; however, in the statement of activities, these costs are allocated over their estimated useful lives as depreciation:

Capital outlay	2,687,069
Depreciation expense	(2,611,109)

Proceeds from debt	(10,151,895)
--------------------	--------------

Change in deferred charges on refunding	(153,130)
---	-----------

Bond issuance costs are expended in governmental funds when paid and are capitalized and amortized over the life of the corresponding bonds for purposes of the statement of net assets.	296,048
--	---------

Repayment of bond principal is an expenditure in the governmental funds but not in the statement of activities (where it reduces long-term debt)	12,199,500
--	------------

Interest expense is recognized in the government-wide statements as it accrues	-
--	---

Repayment of principal on capital leases is an expenditure in the governmental funds but not in the statement of activities (where it reduces long-term debt)	148,482
---	---------

Repayment of principal on direct loans is an expenditure in the governmental funds but not in the statement of activities (where it reduces long-term debt)	373,389
---	---------

Deferred charges on bond refunding associated with long-term debt payable are not reported in the funds

Some employee costs (pension, OPEB, and compensated absences) do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds	(2,572,071)
--	-------------

Change in unamortized bond premiums and discounts	(457,427)
---	-----------

Change in investment in joint venture

Internal service funds are included as part of governmental activities - All other items	(1,451,613)
--	-------------

**Village of Franklin Park, Illinois**  
**Notes to the Financial Statements**  
**April 30, 2022**

**Note 1 - Significant Accounting Policies**

The accounting policies of the Village of Franklin Park, Illinois (the "Village") conform to accounting principles generally accepted in the United States of America (GAAP), as applicable to governmental units. The following is a summary of the significant accounting policies used by the Village of Franklin Park, Illinois:

***Reporting Entity***

The Village of Franklin Park, Illinois is a municipal corporation governed by an elected board. The accompanying financial statements present the Village and its component units, entities for which the Village is considered to be financially accountable. Blended component units are, in substance, part of the Village's operations, even though they are separate legal entities. Thus, blended component units are appropriately presented as funds of the Village. Discretely presented component units are reported in a separate column in the government-wide financial statements to emphasize that they are legally separate from the Village.

**Blended Component Units**

*Foreign Fire Insurance Premium Tax Fund*

The Foreign Fire Insurance Premium Tax Fund was established to account for the fire department's allocable foreign fire insurance tax revenue. This revenue is provided to the fire department as an inducement to assist neighboring communities in emergency situations. This revenue represents a financial benefit to the Village. In addition, the fund is governed by a board that includes members of the board of trustees and fire department personnel all of whom are elected by the members of the fire department. The fund is included within the Village's reporting entity as a special revenue fund.

*Police Pension Fund*

The Village's police department employees participate in the Police Pension Fund. The Police Pension Fund functions for the benefit of these employees and is governed by a five-member pension board. Two members appointed by the president, one elected pension beneficiary, and two elected police employees constitute the pension board. The Village is obligated to fund Police Pension Fund costs based on actuarial valuations. The nature of the Police Pension Fund dictates the Village's financial accountability. The Police Pension Fund has the possibility of imposing a financial burden on the Village. The State of Illinois is authorized to establish benefit levels, and the government is authorized to approve the actuarial assumptions used in the determination of contribution levels. Separately issued financial statements for the Police Pension Fund can be obtained from the Village by contacting the village comptroller.

*Firefighters' Pension Fund*

The Village's fire department employees participate in the Firefighters' Pension Fund. The Firefighters' Pension Fund functions for the benefit of these employees and is governed by a nine-member pension board. The Village's president, treasurer, clerk, attorney, and fire chief; one elected pension beneficiary; and three elected fire employees constitute the pension board. The Village is obligated to fund all Firefighters' Pension Fund costs based on actuarial valuations. The nature of the Firefighters' Pension Fund dictates the Village's financial accountability. The pension fund has the possibility of imposing a financial burden on the Village. The State of Illinois is authorized to establish benefit levels, and the government is authorized to approve the actuarial assumptions used in the determination of contribution levels. Separately issued financial statements for the Firefighters' Pension Fund can be obtained from the Village by contacting the village comptroller.

**Discretely Presented Component Unit**

The Franklin Community Fund was created for charitable and educational purposes and for the specific purpose of lessening the burdens of government for the benefit of the general public. The fund's governing body is appointed by the Village. The Village also has the ability to impose its will on the component unit. The Franklin Community Fund is reported within the component unit column in the government-wide financial statements and does not issue a separate financial statement.

***Accounting and Reporting Principles***

The Village follows accounting principles generally accepted in the United States of America, as applicable to governmental units. Accounting and financial reporting pronouncements are promulgated by the Governmental Accounting Standards Board (GASB). The following is a summary of the significant accounting policies used by the Village:

**Village of Franklin Park, Illinois**  
**Notes to the Financial Statements**  
**April 30, 2022**  
**(Continued)**

**Note 1 - Significant Accounting Policies (Continued)**

***Fund Accounting***

The Village accounts for its various activities in several different funds in order to demonstrate accountability for how it spends certain resources; separate funds allow the Village to show the particular expenditures for which specific revenue is used. The various funds are aggregated into three broad fund types:

**Governmental Funds**

Governmental funds include all activities that provide general governmental services that are not business-type activities. Governmental funds can include the General Corporate Fund, special revenue funds, debt service funds, capital project funds, and permanent funds. The Village reports the following funds as major governmental funds:

- *General Corporate Fund* - The primary operating fund because it accounts for all financial resources used to provide general government services, other than those specifically assigned to another fund.
- *Downtown Franklin Avenue TIF Fund* - A special revenue fund used to account for the tax increment financing revenue and expenditures within the Downtown Franklin Avenue TIF District.

**Proprietary Funds**

Proprietary funds include enterprise funds (which provide goods or services to users in exchange for charges or fees) and internal service funds (which provide goods or services to other funds of the Village). The Village reports the following fund as a major enterprise fund:

- *Water and Sewer Fund* - This fund provides water to customers and disposes of sanitary sewage in exchange for quarterly user charges.

The Village's internal service fund is used to allocate fleet maintenance services to the various funds on a full accrual basis, so that the full costs are recognized and allocated to the various funds in the year that the costs are incurred. In the current and prior years, the full cost has not been charged to the various funds

**Fiduciary Funds**

Fiduciary funds include amounts held in a fiduciary capacity for others. These amounts are not used to operate the Village's programs. Activities that are reported as fiduciary include the following:

- *Police Pension Fund and Firefighters' Pension Fund* - These funds accumulate resources for pension benefit payments to retirees under these plans.

**Interfund Activity**

During the course of operations, the Village has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Furthermore, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements, these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

**Village of Franklin Park, Illinois**  
**Notes to the Financial Statements**  
**April 30, 2022**  
**(Continued)**

**Note 1 - Significant Accounting Policies (Continued)**

***Basis of Accounting***

The governmental funds use the current financial resources measurement focus and the modified accrual basis of accounting. This basis of accounting is intended to better demonstrate accountability for how the Village has spent its resources.

Expenditures are reported when the goods are received or the services are rendered. Capital outlays are reported as expenditures (rather than as capital assets) because they reduce the ability to spend resources in the future; conversely, employee benefit costs that will be funded in the future (such as pension and retiree health care-related costs or sick and vacation pay) are not counted until they come due for payment. In addition, debt service expenditures, claims, and judgments are recorded only when payment is due.

Revenue is not recognized until it is collected or collected soon enough after the end of the year that it is available to pay for obligations outstanding at the end of the year. For this purpose, the Village considers amounts collected within 60 days of year end to be available for recognition. The following major revenue sources meet the availability criterion: intergovernmental revenue, charges for services, licenses and permits, fines and forfeitures, investment earnings, property taxes, sales taxes, and income taxes associated with the current fiscal period. Conversely, certain intergovernmental revenue and grant reimbursements will be collected after the period of availability; receivables have been recorded for these, along with a deferred inflow of resources.

Proprietary funds and fiduciary funds, as applicable, use the economic resources measurement focus and the full accrual basis of accounting. Revenue is recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

***Report Presentation***

Governmental accounting principles require that financial reports include two different perspectives - the government-wide perspective and the fund-based perspective. The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all the nonfiduciary activities of the primary government and its component units, as applicable. The government-wide financial statements are presented on the economic resources measurement focus and the full accrual basis of accounting. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. The statements also present a schedule reconciling these amounts to the modified accrual-based presentation found in the fund-based statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenue. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenue includes: (1) charges to customers or applicants for goods, services, or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions, including special assessments. Taxes, unrestricted intergovernmental receipts, and other items not properly included among program revenue are reported instead as general revenue.

As a general rule, the effect of interfund activity has been removed from the government-wide financial statements. Exceptions to this general rule occur when there are charges between the Village's water and sewer and nonmajor enterprise functions and various other functions of the Village. Elimination of these charges would distort the direct costs and program revenue reported for the various functions concerned.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds, if any, are reported as separate columns in the fund financial statements.

***Specific Balances and Transactions***

***Cash and Investments***

Cash and cash equivalents include cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired. Investments are stated at fair value. The values for the Illinois Funds are the same as the value of the pool shares. State statute requires these funds to comply with the Illinois Public Funds Investment Act.

**Village of Franklin Park, Illinois**  
**Notes to the Financial Statements**  
**April 30, 2022**  
**(Continued)**

**Note 1 - Significant Accounting Policies (Continued)**

**Inventories and Prepaid Items**

Inventories are valued at cost on a first-in, first-out basis. Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaid items in both government-wide and fund financial statements, when applicable.

**Restricted Assets**

There are two components to the restricted assets recorded within the Cullerton Ave capital projects fund. The loans payable held at Cook County, Illinois on behalf of the Village and paid with tax revenue require a debt reserve of cash to be held at the county to cover the next period's principal payment. A total of \$300,000 of the restricted assets as of April 30, 2022 represents this reserve. The remaining restricted assets of \$536,793 represent cash held at Cook County, Illinois on behalf of the Village to be used for future principal and interest payments on the loans payable.

**Capital Assets**

Capital assets, which include property, plant, equipment, intangible assets, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the Village as assets with an initial individual cost of more than \$10,000 and an estimated useful life of more than one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation.

Interest incurred during the construction of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Infrastructure, intangibles, buildings, equipment, and vehicles are depreciated using the straight-line method over the following useful lives:

<b>Capital Assets</b>	<b>Depreciable Useful Life (Years)</b>
Buildings	40
Infrastructure	20-75
Water and Sewer Systems	10-75
Vehicles and Equipment	5-10

**Long-term Obligations**

In the government-wide financial statements and the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund-type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bond using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed at the time they are incurred. In the fund financial statements, governmental fund types recognize bond issuances and premiums as other financing sources and bond discounts as other financing uses. The Corporate Bond and Interest Fund is generally used to liquidate governmental long-term debt, and the Water and Sewer Fund is used to liquidate business-type long-term debt.

**Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of net position and/or balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to future periods and will not be recognized as an outflow of resources (expense / expenditure) until then.

In addition to liabilities, the statement of net position and/or balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to future periods and will not be recognized as an inflow of resources (revenue) until that time.

**Village of Franklin Park, Illinois**  
**Notes to the Financial Statements**  
**April 30, 2022**  
**(Continued)**

**Note 1 - Significant Accounting Policies (Continued)**

The Village reports the following deferred outflows of resources and deferred inflows of resources:

	<u>Outflows</u>	<u>Inflows</u>
Unavailable revenue (those not collected within the period of availability) - Reported only at the modified accrual level		✓
Deferred benefit on bond refunding		✓
Deferred pension costs (or cost reductions)	✓	✓
Deferred OPEB costs (or cost reductions)	✓	✓
Property taxes levied for the following year		✓

**Net Position**

Net position of the Village is classified in three components. Net investment in capital assets consists of capital assets net of accumulated depreciation and is reduced by the current balances of any outstanding borrowings used to finance the purchase or construction of those assets. The restricted component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Unrestricted net position is the remaining net position that does not meet the definition of invested in capital or restricted.

**Net Position Flow Assumption**

The Village will sometimes fund outlays for a particular purpose from both restricted and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements (as applicable), a flow assumption must be made about the order in which the resources are considered to be applied. It is the Village's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

**Fund Balance Flow Assumptions**

The Village will sometimes fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Village's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Furthermore, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

**Fund Balance Policies**

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The Village itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the Village's highest level of decision-making authority. The village board of trustees is the highest level of decision-making authority for the Village that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation. As of April 30, 2022, the Village does not have any commitments of fund balance.

**Village of Franklin Park, Illinois**  
**Notes to the Financial Statements**  
**April 30, 2022**  
**(Continued)**

**Note 1 - Significant Accounting Policies (Continued)**

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The village board of trustees may also assign fund balance as it does when appropriate fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally exist only temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment. As of April 30, 2022, the Village has not assigned any fund balance related to the FY 2023 budget.

**Property Tax Revenue**

Property taxes are attached as an enforceable lien on January 1 of the levy year. They are levied in December (by passage of a tax levy ordinance). Tax bills are prepared by the county and issued on or about February 1 and August 1 and are payable in two installments on or about March 1 and September 1 (or four weeks after the tax bills are mailed by the Cook County, Illinois collector). The county collects such taxes and remits them periodically to the Village. Property taxes for debt service are levied when the related general obligation bonds are authorized and may be subsequently abated in whole or in part by the village board based on the availability of other funds.

Property taxes receivable (net of allowance for uncollectible amounts based on prior history) are recorded at the time of the enforceable lien. The Village's property tax revenue is deemed to finance the current year to the extent collected within 60 days of year end and the subsequent year to the extent not collected within this period. The amount not collected within this period is reported as a deferred inflow of resources.

The Village also receives, but does not levy for, road and bridge and tax increment financing district property taxes. The Village does not record receivable for property taxes related to the tax increment financing (TIF) districts. Due to the nature of TIF revenue, the Village does not levy a direct tax upon the districts. Instead, the property taxes are based solely upon the incremental increase in the property value utilizing the tax rates of all the taxing bodies whose boundaries encompass the districts. As such, the Village cannot reasonably estimate the receivable and records the revenue on a cash basis.

**Pension**

The Village offers defined benefit pension plans to its employees. The Village records a net pension liability or asset for the difference between the total pension liability calculated by the actuary and the pension plans' fiduciary net position. For the purpose of measuring the net pension liability or asset, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Illinois Municipal Retirement Fund Regular Plan, Illinois Municipal Retirement Fund Sheriffs Law Enforcement Plan, Police Pension Plan, and Firefighters' Pension Plan and additions to/deductions from the pension plans' fiduciary net position have been determined on the same basis as they are reported by the pension plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest-earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

**Other Postemployment Benefit Costs**

The Village offers retiree health care benefits to retirees. The Village records a net OPEB liability for the difference between the total OPEB liability calculated by the actuary and the OPEB plan's fiduciary net position. For the purpose of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the OPEB plan and additions to/deductions from the OPEB plan's fiduciary net position have been determined on the same basis as they are reported by the OPEB plan. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. The Village has not set aside any funds to date toward this liability; hence, the unfunded net OPEB liability is equal to the total OPEB liability calculated by the actuary.

**Compensated Absences (Vacation and Sick Leave)**

It is the Village's policy to permit employees to accumulate earned but unused sick and vacation pay benefits. All sick and vacation pay is accrued when incurred in the government-wide, proprietary fund, and fiduciary fund financial statements to the extent it will be paid out upon termination or retirement. A liability for these amounts is reported in governmental funds only for employee terminations as of year-end. All other accrued compensated absences are reported in the government-wide financial statements; generally, the funds that report each employee's compensation (the General Corporate Fund and Water and Sewer Fund, primarily) are used to liquidate these obligations.

**Village of Franklin Park, Illinois**  
**Notes to the Financial Statements**  
**April 30, 2022**  
**(Continued)**

**Note 1 - Significant Accounting Policies (Continued)**

**Proprietary Funds Operating Classification**

Proprietary funds distinguish operating revenue and expenses from nonoperating items. Operating revenue and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of proprietary funds is charges to customers for sales or services. Operating expenses for these funds include the cost of sales or services and administrative expenses and may include depreciation on capital assets. All revenue and expenses not meeting this definition are reported as nonoperating revenue and expenses.

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

**Adoption of New Accounting Pronouncement**

During the current year, the Village adopted GASB Statement No. 84, *Fiduciary Activities*, which establishes criteria for identifying and reporting fiduciary activities. As a result of implementing this standard, The Village Escrow Fund was previously reported as fiduciary activities but no longer meets the definition of such; therefore, this activity is now reported within governmental funds.

**Upcoming Accounting Pronouncements**

In June 2017, the GASB issued Statement No. 87, *Leases*, which improves accounting and financial reporting for leases by governments. This statement requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financing of the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. The Village is currently evaluating the impact this standard will have on the financial statements when adopted. The provisions of this statement are effective for the Village's financial statements for the year ending April 30, 2023

In May 2019, the GASB issued Statement No. 91, *Conduit Debt Obligations*, which clarifies the existing definition of conduit debt, provides a single method of reporting conduit debt obligations by issuers, and eliminates diversity in practice associated with commitments extended by issuers, arrangements associated with conduit debt obligations, and related note disclosures. As a result, issuers should not recognize a liability for items meeting the definition of conduit debt; however, a liability should be recorded for additional or voluntary commitments to support debt service if certain recognition criteria are met. The standard also addresses the treatment of arrangements where capital assets are constructed or acquired with the proceeds of a conduit debt obligation and used by a third-party obligor. The requirements of the standard will be applied retrospectively and are effective for the Village's financial statements for the April 30, 2023 fiscal year.

**Village of Franklin Park, Illinois**  
**Notes to the Financial Statements**  
**April 30, 2022**  
**(Continued)**

**Note 1 - Significant Accounting Policies (Continued)**

In January 2020, the GASB issued Statement No. 92, *Omnibus 2020*. This statement addresses eight unrelated practice issues and technical inconsistencies in authoritative literature. The standard addresses leases, intra-entity transfers of assets, postemployment benefits, government acquisitions, risk financing and insurance-related activities of public entity risk pools, fair value measurements, and derivative instruments. The standard has various effective dates. The Village does not believe this pronouncement will have a significant impact on its financial statements but is still making a full evaluation.

In March 2020, the GASB issued Statement No. 93, *Replacement of Interbank Offered Rates*. With the London Interbank Offered Rate (LIBOR) expecting to cease existence in its current form at the end of 2021, this statement addresses accounting and financial reporting implications that result from the replacement of an interbank offered rate (IBOR) in hedging derivative instruments and leases. The standard is effective for the Village's financial statements for the April 30, 2022 fiscal year. Lease modification requirements are effective one year later.

In March 2020, the GASB issued Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, to bring a uniform guidance on how to report public-private and public-public partnership arrangements. As a result, transferors in public-private or public-public arrangements will recognize receivables for installment payments, deferred inflows of resources, and, when applicable, capital assets. Operators will recognize liabilities for installment payments and intangible right-to-use assets, and when applicable, deferred outflows of resources and liabilities for assets being transferred. This statement also provides guidance for accounting and financial reporting for availability payment arrangements, in which a government compensates an operator for services such as designing, constructing, financing, maintaining, or operating an underlying asset for a period of time in an exchange or exchange-like transaction. The provisions of this statement are effective for the Village's financial statements for the year ending April 30, 2024.

In May 2020, the Governmental Accounting Standards Board issued Statement No. 96, *Subscription-Based Information Technology Arrangements (SBITAs)*, which defines SBITAs and provides accounting and financial reporting for SBITAs by governments. This statement requires a government to recognize subscription liability and an intangible right-to-use subscription asset for SBITAs. The Village is currently evaluating the impact this standard will have on the financial statements when adopted. The provisions of this statement are effective for the Village's financial statements for the year ending April 30, 2024.

In April 2022, the Governmental Accounting Standards Board issued Statement No. 99, *Omnibus 2022*, which establishes or amends accounting and financial reporting requirements for specific issues related to financial guarantees, derivative instruments, leases, public-public and public-private partnerships (PPPs), subscription-based information technology arrangements (SBITAs), the transition from the London Interbank Offered Rate (LIBOR), the Supplemental Nutrition Assistance Program (SNAP), nonmonetary transactions, pledges of future revenue, the focus of government-wide financial statements, and terminology. The standard has various effective dates. The Village does not believe this pronouncement will have a significant impact on its financial statements but is still making a full evaluation.

In June 2022, the Governmental Accounting Standards Board issued Statement No. 101, *Compensated Absences*, which updates the recognition and measurement guidance for compensated absences under a unified model. This statement requires that liabilities for compensated absences be recognized for leave that has not been used and leave that has been used but not yet paid in cash or settled through noncash means and establishes guidance for measuring a liability for leave that has not been used. It also updates disclosure requirements for compensated absences. The provisions of this statement are effective for the Village's financial statements for the year ending April 30, 2025.

**Note 2 - Deposits and Investments**

Deposits and investments of the Village, excluding the pension trust funds, are reported in the financial statements as follows:

	<b>Governmental Activities</b>	<b>Business-type Activities</b>
Cash and cash equivalents	\$ 32,946,028	\$ (1,992,866)
Investments	508,612	3,597,117
Restricted cash and investments	836,793	-
<b>Total</b>	<b>\$ 34,291,433</b>	<b>\$ 1,604,251</b>

**Village of Franklin Park, Illinois**  
**Notes to the Financial Statements**  
**April 30, 2022**  
**(Continued)**

**Note 2 - Deposits and Investments (Continued)**

Statutes authorize the Village to make deposits/invest in commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. agencies, obligations of states and their political subdivisions, credit union shares, repurchase agreements, commercial paper rated within the three highest classifications by at least two standard rating services, and the Illinois Public Treasurer's Investment Pool. The pension trust funds may also invest in certain non-U.S. obligations, mortgages, veterans' loans, life insurance company contracts, money market mutual funds, and common and preferred stocks. Pension funds with net position of \$2.5 million or more may invest up to 45 percent of plan net position in separate accounts of life insurance companies and mutual funds. In addition, pension funds with net position of at least \$5 million that have appointed an investment advisor may invest up to 45 percent of the plan's net position in common and preferred stocks that meet specific restrictions. Illinois Funds is an investment pool managed by the State of Illinois, Office of the Treasurer, that allows governments within the state to pool their funds for investment purposes. Illinois Funds is not registered with the SEC as an investment company but does operate in a manner consistent with SEC regulated Rule 2a7. Investments in Illinois Funds are valued at Illinois Funds' share price, the price for which the investment could be sold, at amortized cost. The shares do not mature. There are no limitations or restrictions on participant withdrawals for Illinois Funds.

The Village's cash and investments are subject to several types of risk, which are examined in more detail below:

***Custodial Credit Risk of Bank Deposits***

Custodial credit risk is the risk that, in the event of a bank failure, the Village's deposits may not be returned to it. The carrying amount of cash, excluding the pension trust funds, was \$32,946,028 as of April 30, 2022, while the bank balances were \$35,749,606. All account balances at banks were either insured by the Federal Deposit Insurance Corporation (FDIC) for \$250,000 or collateralized with securities of the U.S. government or with letters of credit issued by the Federal Home Loan Bank held in the Village's name by financial institutions acting as the Village's agent.

As of April 30, 2022, the Police Pension Fund's carrying amount of cash was \$1,872,922, while the bank balances were \$1,872,922. The FDIC insures bank balances up to \$250,000. As of April 30, 2022, the entire amount of the bank balance of the deposits was covered by federal depository or equivalent insurance. The Police Pension Fund's investment policy does not require pledging of collateral for all bank balances in excess of federal depository insurance since flow-through FDIC insurance is available for the Police Pension Fund's deposits with financial institutions.

As of April 30, 2022, the Firefighters' Pension Fund's carrying amount and bank balances of cash were \$2,026,742 and \$2,023,742, respectively. The FDIC insures bank balances up to \$250,000. As of April 30, 2022, the entire amount of the bank balance of the deposits was covered by federal depository or equivalent insurance. The Firefighters' Pension Fund's investment policy does not require pledging of collateral for all bank balances in excess of federal depository insurance, since flow-through FDIC insurance is available for the Firefighters' Pension Fund's deposits with financial institutions.

***Investments***

The following schedule reports the fair values for the Village's investments (excluding pension trust funds) as of April 30, 2022. All investments mature in less than one year:

		<b>Fair Value</b>
Money market mutual fund	\$	2,278,402
Treasurer Illinois Funds	\$	3,597,117

***Custodial Credit Risk of Investments***

For an investment, this is the risk that, in the event of the failure of the counterparty, the Village or the Police Pension or Firefighters' Pension funds will not be able to recover the value of their investments or collateral securities that are in the possession of an outside party. Mutual funds are not subject to custodial credit risk disclosures. The Village limits its exposure to custodial credit risk by utilizing independent third-party institutions, selected by the Village, to act as custodians for its securities and collateral, as described in the Village's investment policy. The Village's investments are fully collateralized as of April 30, 2022. Although not required by the Police Pension or Firefighters' Pension funds' investment policies, the Police Pension and Firefighters' Pension funds limit their exposure to custodial credit risk by utilizing an independent third-party institution, selected by the Police Pension or Firefighters' Pension funds, to act as custodian for its securities and collateral.

**Village of Franklin Park, Illinois**  
**Notes to the Financial Statements**  
**April 30, 2022**  
**(Continued)**

**Note 2 - Deposits and Investments (Continued)**

***Interest Rate Risk***

The Village limits its exposure to interest rate risk by structuring its portfolio so that it does not invest any operating funds in any debt instruments other than U.S. agencies and Illinois Funds, as described in the adopted village investment policy.

The Police Pension and Firefighters' Pension funds' formal investment policies limit their exposure to interest rate risk by structuring the portfolio to provide liquidity while at the same time matching investment maturities to projected fund liabilities.

The following schedule reports the fair values and maturities for the Police Pension and Firefighters' Pension funds' investments as of April 30, 2022:

<b>Police Pension Fund</b>	<b>Fair Value</b>	<b>&lt; 1 Year</b>	<b>1-5 Years</b>	<b>6-10 Years</b>	<b>&gt; 10 Years</b>
U.S. Treasury notes	\$ 5,508,880	\$ 290,136	\$ 4,561,316	\$ 657,428	\$ -
U.S. government agency securities	10,780	-	69,171	-	10,196
Corporate bonds	5,127,640	-	2,096,108	2,962,944	-
<b>Total</b>	<b>\$ 10,647,300</b>	<b>\$ 290,136</b>	<b>\$ 6,726,595</b>	<b>\$ 3,620,372</b>	<b>\$ 10,196</b>

The Illinois Firefighters' Pension Investment Fund (IFPIF) is an investment trust fund responsible for the consolidation and fiduciary management of the pension assets of Illinois suburban and downstate firefighter pension funds. IFPIF was created by Public Act 101-0610, and codified with in the Illinois Pension Code, becoming effective January 1, 2020, to streamline investments and eliminate unnecessary and redundant administrative costs, thereby ensuring assets are available to fund pension benefits for the beneficiaries of the participating pension funds. Participation in IFPIF by Illinois suburban and downstate firefighter pension funds is mandatory. Investments of the Fund are combined in a commingled external investment pool and held by IFPIF. A schedule of investment expenses is included in IFPIF's annual report. For additional information on IFPIF's investments, please refer to their annual report as of June 30, 2021. A copy of that report can be obtained from IFPIF at 1919 South Highland Avenue, Building A, Suite 237, Lombard, IL 60148 or at [www.ifpif.org](http://www.ifpif.org). The Fund transferred all eligible assets to the Investment Fund in October 2021.

***Credit Risk***

The Village (excluding pension trust funds) limits its exposure to credit risk, the risk that the issuer of a debt security will not pay its par value upon maturity, by primarily investing in U.S. agencies and Illinois Funds, as described in the adopted village investment policy. The United States agencies are implicitly guaranteed by the United States government. Illinois Funds are rated AAA by Standard & Poor's.

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Police Pension and Firefighters' Pension funds help limit their exposure to credit risk by primarily investing in securities issued by the United States government and/or its agencies that are implicitly guaranteed by the United States government. The Police Pension and Firefighters' Pension funds' investment policies established criteria for allowable investments; those criteria follow the requirements of the Illinois Pension Code. The Police Pension and Firefighters' Pension funds' investment policies also prescribe the prudent person rule.

For the Police Pension Fund, U.S. government agencies were all rated AAA, and corporate bonds were rated BBB or better by Standard & Poor's or by Moody's Investors Services or were small issues that were unrated or underrated. Unrated (N/R) and underrated investments are listed in the table below.

For the Firefighters' Pension Fund, U.S. government agencies were all rated AAA, and corporate bonds were rated BBB or better by Standard & Poor's or by Moody's Investors Services or were small issues that were unrated or underrated. Unrated (N/R) and underrated investments are listed in the table below:

<b>Investment</b>	<b>Fair Value</b>
Police Pension Fund - Unrated	\$ 486,412
Firefighters' Pension Fund - Unrated	\$ 121,587

**Village of Franklin Park, Illinois**  
**Notes to the Financial Statements**  
**April 30, 2022**  
**(Continued)**

**Note 2 - Deposits and Investments (Continued)**

**Concentration of Credit Risk**

The Village limits the amount the Village may invest in any one issuer; no more than 50 percent of the funds may be invested in a single institution, as described in the adopted village investment policy. More than 5 percent of the Village's investments (excluding pension trust funds) are in the Amalgamated Bank money market mutual fund (11 percent).

The Police Pension Fund diversifies investments so as to minimize the risk of large losses, and the securities of any one company should not exceed 5 percent of the total fund and no more than 10 percent of the total fund should be invested in any one industry. As of April 30, 2022, more than 5 percent of the Police Pension Fund's investments are in Vanguard Total Stock Market Index Fund, Vanguard Small Cap Index Fund, and MFS International Value Fund. These investments are 24, 9, and 7 percent, respectively, of the Police Pension Fund's total investments.

The Firefighters' Pension Fund's investment policy states the trustees seek to "optimize the asset allocation to best meet the actuarial and cash flow needs of the Pension Fund at a prudent level of risk." As of April 30, 2022, more than 5 percent of the Firefighters' Pension Fund's investments are in Principal Life Financial Insurance Contract, Vanguard Total Stock Market Index Fund, Vanguard Total International Stock Index Fund, and Artisan International Investor Fund. These investments are 11, 6, 24, and 6 percent, respectively, of the Firefighters' Pension Fund's total investments.

**Note 3 - Fair Value Measurements**

The Village categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the assets and liabilities. Level 1 inputs are quoted prices in active markets for identical assets and liabilities, Level 2 inputs are significant other observable inputs, and Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy.

In instances where inputs used to measure fair value fall into different levels in the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Village's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The Village has the following recurring fair value measurements as of April 30, 2022:

**Governmental and proprietary investment types by fair value measure:**

	<b>Quoted Prices in Active Markets for Identical Assets (Level 1)</b>	<b>Significant Other Observable Inputs (Level 2)</b>	<b>Significant Unobservable Inputs (Level 3)</b>	<b>Total</b>
Mutual funds	\$ -	\$ 2,278,402	\$ -	\$ 2,278,402
Treasurer Illinois Funds	-	2,682,117	-	2,682,117
<b>Total</b>	<b>\$ -</b>	<b>\$ 4,960,519</b>	<b>\$ -</b>	<b>\$ 4,960,519</b>

**Village of Franklin Park, Illinois**  
**Notes to the Financial Statements**  
**April 30, 2022**  
**(Continued)**

**Note 3 - Fair Value Measurements (Continued)**

The Police Pension Fund and Firefighters' Pension Fund had the following recurring fair value measurements as of April 30, 2022:

<b>Police Pension Fund</b>	<b>Assets Measured at Fair Value on a Recurring Basis</b>			
	<b>Assets Measured at Fair Value on a Recurring Basis</b>	<b>Significant Other Observable (Level 2)</b>	<b>Significant Unobservable Inputs (Level 3)</b>	<b>Total</b>
<b>Debt securities:</b>				
U.S. Treasuries	\$ 5,508,880	\$ -	\$ -	\$ 5,508,880
U.S. agencies	-	10,780	-	10,780
Corporate bonds	-	5,127,640	-	5,127,640
Total debt securities	5,508,880	5,138,420	-	10,647,300
<b>Equity securities:</b>				
Insurance contracts	275,689	-	-	275,689
Mutual funds	21,419,308	-	-	21,419,308
Total equity securities	21,694,997	-	-	21,694,997
<b>Total investments by fair value</b>	<b>\$ 27,203,877</b>	<b>\$ 5,138,420</b>	<b>\$ -</b>	<b>\$ 32,342,297</b>

**Firefighter pension fund**

The Illinois Firefighters' Pension Investment Fund (IFPIF) is an investment trust fund responsible for the consolidation and fiduciary management of the pension assets of Illinois suburban and downstate firefighter pension funds. IFPIF was created by Public Act 101-0610, and codified with in the Illinois Pension Code, becoming effective January 1, 2020, to streamline investments and eliminate unnecessary and redundant administrative costs, thereby ensuring assets are available to fund pension benefits for the beneficiaries of the participating pension funds. Participation in IFPIF by Illinois suburban and downstate firefighter pension funds is mandatory. Investments of the Fund are combined in a commingled external investment pool and held by IFPIF. A schedule of investment expenses is included in IFPIF's annual report. For additional information on IFPIF's investments, please refer to their annual report as of June 30, 2021. A copy of that report can be obtained from IFPIF at 1919 South Highland Avenue, Building A, Suite 237, Lombard, IL 60148 or at [www.ifpif.org](http://www.ifpif.org). The Fund transferred all eligible assets to the Investment Fund in October 2021.

At year-end the Fund has \$32,561,648 invested in IFPIF, which is measured at the Net Asset Value (NAV) per share as determined by the pool. The pooled investments consist of the investments as noted in the target allocation table available at [www.ifpif.org](http://www.ifpif.org).

Debt and equity securities classified in Level 1 are valued using prices quoted in active markets for those securities.

The fair value of U.S. agencies, corporate bonds, and insurance contracts as of April 30, 2022 was determined primarily based on Level 2 inputs. The Village estimates the fair value of these investments using other inputs, such as interest rates and yield curves, that are observable at commonly quoted intervals

**April 30, 2022**  
**(Continued)**

**Note 5 - Long-term Debt**

The Village issues long-term debt to provide for the acquisition and construction of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the Village. Leases and loans are also general obligations of the Village. Long-term debt activity can be summarized as follows:

**Governmental Activities**

	Interest Rate Ranges	Principal Maturity Ranges	Beginning Balance	Additions	Reductions	Ending Balance	Due within One Year
Other debt-bonds and contracts payable:							
General Obligations Bonds (Alternate Revenue Source): Series 2011 - \$9,975,000 Payable through 2031	4.00% - 6.25%	\$ 500,000 – \$ 880,000	\$ 6,805,000	\$ -	\$ (6,805,000)	\$ -	\$ -

***Assets Pledged as Collateral***

**Direct Borrowings and Direct Placements**

The Village's outstanding lease payables are secured by the equipment leased.

***Legal Debt Margin***

The Village is subject to a legal debt margin of 8.625 percent of equalized assessed value (EAV) of property in the Village. As of April 30, 2022, the equalized assessed valuation of the Village using the tax year 2022 EAV is \$1,069,326,550, and the legal debt margin is \$92,229,415, while the equalized assessed valuation of the Village using the tax year 2021 EAV (which was also in effect during the fiscal year) is \$832,506,906, and the legal debt margin is \$71,803,721. Pursuant to the provisions of the Debt Reform Act, alternate revenue bonds do not count against the statutory 8.625 percent of EAV limit unless the government fails to abate the associated property tax levies. The Series 2014B, 2016A, and 2018 are such bonds; therefore, the Village is in compliance.

**Village of Franklin Park, Illinois**  
**Notes to the Financial Statements**  
**April 30, 2022**  
**(Continued)**

**Note 5 - Long-term Debt (Continued)**

**Debt Covenants**

The Village is subject to disclosure covenants for its general obligation bonds. These covenants include disclosure of annual financial information 210 days after fiscal year end. Noncompliance could result in the bondholders filing legal action against the Village compelling the Village to complete its filings.

**Note 6 - Short-term Debt**

The Village maintains a \$4,000,000 revolving line of credit with one of its banks. The line provides a liquidity cushion for the Village, largely for use between the twice-yearly receipt of property tax revenue. The Village has maintained a liquidity facility since 2009 when it was \$2,000,000. During the intervening period, the facility has grown to its present \$4,000,000. The line is renewable annually at the end of June. As of April 30, 2022, there were no outstanding draws on the line of credit, and there were no amounts drawn down on the line of credit during the year ended April 30, 2022.

**Note 7 - Leases**

***Capital Leases***

The Village has entered into lease agreements as lessee for financing the purchase of a fire truck and a backhoe loader. These lease agreements qualify as capital leases for accounting purposes. The future minimum lease obligations are as follows:

Years Ending	Amount
2023	\$ 177,377
2024	180,851
2025	184,406
2026	188,046
2027	57,218
Thereafter	386,425
<b>Total</b>	<b>\$ 1,174,323</b>

**Note 8 - Noncommitment Debt**

Tax increment financing notes outstanding as of April 30, 2022 total \$1,678,682. These notes are not an obligation of the Village and are secured by the levy of real estate taxes on certain property within the tax increment financing areas. The Village is not liable for repayment but acts as an agent for the property owners in levying the property taxes and forwarding collections to note holders. A summary of noncommitment is as follows:

***Seymour Avenue/Waveland Avenue Redevelopment Project***

Series 2017A note of \$1,393,651 issued on May 22, 2017 bearing interest at 8 percent and was paid in full during as of April 30, 2022.

Series 2017B note of \$1,678,682 issued on May 22, 2017 with a zero percent interest rate. The principal balance and total amount due as of April 30, 2021 is \$1,678,682. The final due date of the note is May 22, 2037. At that time, all unpaid principal and interest due on the note shall be forfeited by the note holder.

**Village of Franklin Park, Illinois**  
**Notes to the Financial Statements**  
**April 30, 2022**  
**(Continued)**

**Note 9 - Interfund Receivables, Payables, and Transfers**

The Village has made the following long-term advances between funds:

<u>Fund Borrowed From</u>	<u>Fund Loaned To</u>	<u>Amount</u>
(GEN) General Corporate Fund	(DFA) Downtown Franklin Ave TIF Fund	\$ 1,745,138
(GEN) General Corporate Fund	(NMG) Non-Major Governmental Funds	2,232,805
	Total General Corporate Fund	<u>3,977,943</u>
(NMG) Non-Major Governmental Funds	(DFA) Downtown Franklin Ave TIF Fund	591,139
	Total Non-Major Governmental Funds	<u>591,139</u>
(WSF) Water and Sewer Fund	(DFA) Downtown Franklin Ave TIF Fund	400,000
(WSF) Water and Sewer Fund	(NME) Non-Major Enterprise Funds	439,035
	Total Water and Sewer Fund	<u>839,035</u>
	<b>Total</b>	<b>\$ <u>5,408,117</u></b>

The principal purposes of the interfund receivables and payables were purchases made with cash from a different fund. All remaining balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. Related to the interfund receivable and payable between the General Corporate Fund and the Downtown Franklin Avenue TIF Fund of \$1,745,138, the General Corporate Fund lent the Downtown Franklin Avenue TIF Fund money to cover initial costs.

Interfund transfers reported in the fund financial statements are composed of the following:

<u>Paying Fund (Transfer Out)</u>	<u>Receiving Fund (Transfer In)</u>	<u>Amount</u>
(GEN) General Corporate Fund	(DFA) Downtown Franklin Ave TIF Fund	\$ 250,000
(GEN) General Corporate Fund	(NMG) Non-Major Governmental Funds	1,850,000
	Total General Corporate Fund	<u>2,100,000</u>
(DFA) Downtown Franklin Ave TIF Fund	(NMG) Non-Major Governmental Funds	424,638
	Total Downtown Franklin Ave TIF Fund	<u>424,638</u>
(NMG) Non-Major Governmental Funds	(NMG) Non-Major Governmental Funds	2,959,815
(NMG) Non-Major Governmental Funds	(WSF) Water and Sewer Fund	1,622,625
	Total Non-Major Governmental Fund	<u>4,582,440</u>
(WSF) Water and Sewer Fund	(NME) Non-Major Enterprise Funds	450,000
	Total Water and Sewer Fund	<u>450,000</u>
	<b>Total</b>	<b>\$ <u>7,557,078</u></b>

**Village of Franklin Park, Illinois**  
**Notes to the Financial Statements**  
**April 30, 2022**  
**(Continued)**

**Note 9 - Interfund Receivables, Payables, and Transfers (Continued)**

The transfer between the Corporate Bond and Interest Fund and the Water and Sewer Fund is related to tax moneys collected in the Corporate Bond and Interest Fund related to debt principal and interest paid out of the Water and Sewer Fund. The transfers between the Downtown Franklin Avenue TIF Fund, nonmajor governmental funds, and the Corporate Bond and Interest Fund are due to the fact that bond covenants require that expenditures for debt service be shown in the Corporate Bond and Interest Fund; however, the payment related to TIF bonds. The transfers between nonmajor governmental funds related to reappropriation of moneys between contiguous TIF districts. The transfer between the Water and Sewer Fund and the nonmajor enterprise funds represents the financing of operations in the nonmajor enterprise funds in accordance with budgetary restrictions. The transfers between the General Corporate Fund, Water and Sewer Fund and the Fleet Maintenance Fund represent the forgiveness of old advances made between these funds.

**Note 10 - Pension Plans**

***Plan Description***

The Village of Franklin Park, Illinois provides various retirement benefits to employees who meet the eligibility requirements, including age and years of service. The benefits are provided through the Illinois Municipal Retirement Fund (IMRF) Regular Plan, an agent multiple-employer plan administered by IMRF; the IMRF Sheriffs Law Enforcement Plan (SLEP), an agent multiple-employer plan administered by IMRF; the Police Pension Plan, a single-employer plan administered by the Police Pension Fund Board; and the Firefighters' Pension Plan, a single-employer plan administered by the Firefighters' Pension Fund Board.

The Village accounts for the Police Pension Plan and Firefighters' Pension Plan as pension trust funds. Both funds are governed by a five-member board of trustees. Two members of each board are appointed by the Village's mayor, one member of each board is elected by respective pension beneficiaries, and two members of each respective board are elected by the active police and fire employees.

Each pension system issues a publicly available financial report. IMRF issues a publicly available Annual Comprehensive Financial Report available for download at [www.imrf.org](http://www.imrf.org) for the IMRF Regular Plan and IMRF SLEP. The Police Pension Plan and Firefighters' Pension Plan issue their own stand-alone financial reports, which can be obtained by writing to the Village.

***Benefits Provided***

**IMRF Regular Plan and IMRF SLEP**

The IMRF Regular Plan provides retirement and disability benefits, postretirement increases, and death benefits to regular plan members and beneficiaries. The IMRF SLEP provides retirement and disability benefits, postretirement increases, and death benefits to sheriffs law enforcement personnel employees and beneficiaries.

The IMRF Regular Plan and IMRF SLEP provide two tiers of pension benefits. Employees hired before January 1, 2011 are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least 8 years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with 8 years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3 percent of the final rate of earnings for the first 15 years of service credit, plus 2 percent for each year of service credit after 15 years to a maximum of 75 percent of their final rate of earnings. The final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3 percent of the original amount on January 1 every year after retirement.

Employees hired on or after January 1, 2011 are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after 10 years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with 10 years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3 percent of the final rate of earnings for the first 15 years of service credit, plus 2 percent for each year of service credit after 15 years to a maximum of 75 percent of their final rate of earnings. The final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of the following:

- 3 percent of the original pension amount
- Half of the increase in the Consumer Price Index of the original pension amount

Benefit provisions for both the IMRF Regular Plan and IMRF SLEP are established by statute and may only be changed by the General Assembly of the State of Illinois.

**Village of Franklin Park, Illinois**  
**Notes to the Financial Statements**  
**April 30, 2022**  
**(Continued)**

**Note 10 - Pension Plans (Continued)**

**Police Pension Plan and Firefighters' Pension Plan**

The Police Pension Plan and Firefighters' Pension Plan cover all sworn police and fire personnel of the Village, respectively. The defined benefits for both funds are governed by Illinois Compiled Statutes (40 ILCS 5/3-1 for Police and ILCS 5/4-1 for Fire) and may be amended only by the Illinois Legislature.

The Police Pension Plan and Firefighters' Pension Plan provide retirement benefits through two tiers of benefits, as well as death and disability benefits. Covered employees hired before January 1, 2011 (Tier 1) attaining the age of 50 or older with 20 or more years of creditable service are entitled to receive an annual retirement benefit of half of the salary attached to the rank held on the last day of service or for 1 year prior to the last day, whichever is greater. The annual benefit shall be increased by 2.5 percent of such salary for each additional year of service over 20 years up to 30 years, to a maximum of 75 percent of such salary. Employees with at least 8 years but less than 20 years of credited service may retire at or after age 60 and receive a reduced benefit. The monthly benefit of a police officer who retired with 20 or more years of service after January 1, 1977 shall be increased annually following the first anniversary date of retirement by 3 percent of the original pension and 3 percent compounded annually thereafter and be paid upon reaching the age of at least 55 years.

Covered employees hired on or after January 1, 2011 (Tier 2) attaining the age of 55 or older with 10 or more years of creditable service are entitled to receive an annual retirement benefit equal to the average monthly salary obtained by dividing the total salary of the police officer during the 96 consecutive months of service within the last 120 months of service in which the total salary was the highest by the number of months of service in that period. Police officer and firefighter salary for pension purposes is capped at \$106,800, plus the lesser of one-half of the annual change in the Consumer Price Index or 3 percent compounded. The annual benefit shall be increased by 2.5 percent of such a salary for each additional year of service over 20 years up to 30 years to a maximum of 75 percent of such salary. Employees with at least 10 years may retire at or after age 50 and receive a reduced benefit (i.e., 0.5 percent for each month under 55). The monthly benefit of a Tier 2 police officer shall be increased annually at age 60 on the January 1 after the police officer retires or the first anniversary of the pension starting date, whichever is later. Noncompounding increases occur annually each January thereafter. The increase is the lesser of 3 percent or one-half of the change in the Consumer Price Index for the preceding calendar year.

**Employees Covered by Benefit Terms**

The following members were covered by the benefit terms:

	<b>IMRF Regular Plan</b>	<b>IMRF SLEP</b>	<b>Police Pension Plan</b>	<b>Firefighters' Pension Plan</b>
Date of Member count	12/31/2021	12/31/2021	4/30/2021	4/30/2021
Inactive plan members or beneficiaries currently receiving benefits	125	-	57	56
Inactive plan members entitled to but not yet receiving benefits	37	-	5	2
Active plan members	62	-	44	41
<b>Total employees covered by the plan</b>	<b>224</b>	<b>-</b>	<b>106</b>	<b>99</b>

**Contributions IMRF**

**Regular Plan**

As set by statute, the Village's regular plan members are required to contribute 4.5 percent of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The Village's annual contribution rate for the calendar years 2022 and 2021 was 6.81 and 6.70 percent, respectively. For the fiscal year ended April 30, 2022, the Village contributed \$281,407 to the plan. The Village also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's board of trustees, while the supplemental retirement benefits rate is set by statute.

**Village of Franklin Park, Illinois**  
**Notes to the Financial Statements**  
**April 30, 2022**  
**(Continued)**

**Note 10 - Pension Plans (Continued)**

**IMRF SLEP**

As set by statute, the Village's SLEP plan members are required to contribute 7.25 percent of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. For the fiscal year ended April 30, 2022, the Village contributed \$0 to the plan. The Village also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's board of trustees, while the supplemental retirement benefits rate is set by statute.

**Police Pension Plan**

Covered employees are required to contribute 9.91 percent of their base salary to the Police Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The Village is required to contribute the remaining amounts necessary to finance the plan and the administrative costs, as actuarially determined by an enrolled actuary. However, effective January 1, 2011, ILCS requires the Village to contribute a minimum amount annually calculated using the projected unit credit actuarial cost method that will result in the funding of 90 percent of the past service cost by the year 2040. The Village has chosen to use the following parameters to fund its pension plan above and beyond the state minimum. For the year ended April 30, 2022, the Village's contribution was 75.89 percent of covered payroll.

**Firefighters' Pension Plan**

Covered employees are required to contribute 9.455 percent of their base salary to the Firefighters' Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The Village is required to contribute the remaining amounts necessary to finance the plan and the administrative costs, as actuarially determined by an enrolled actuary. However, effective January 1, 2011, ILCS requires the Village to contribute a minimum amount annually calculated using the projected unit credit actuarial cost method that will result in the funding of 90 percent of the past service cost by the year 2040. The Village has chosen to use the following parameters to fund its pension plan above and beyond the state minimum. For the year ended April 30, 2022, the Village's contribution was 73.96 percent of covered payroll.

**Net Pension Liability**

The Village chooses a date for each pension plan to measure its net pension liability. This is based on the measurement date of each pension plan, which may be based on a comprehensive valuation as of that date or based on an earlier valuation that has used procedures to roll the information forward to the measurement date.

	<b><u>IMRF Regular Plan</u></b>	<b><u>IMRF SLEP</u></b>	<b><u>Police Pension Plan</u></b>	<b><u>Firefighters' Pension Plan</u></b>
Measurement date used for the Village's net pension liability	12/31/2021	12/31/2021	4/30/2022	4/30/2022
Based on a comprehensive actuarial valuation as of	12/31/2021	12/31/2021	5/1/2021	5/1/2021

**Note 10 - Pension Plans (Continued)**

***Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions***

For the year ended April 30, 2022, the Village recognized pension expense of \$7,886,122 from all plans.

As of April 30, 2022, the Village reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Difference between expected and actual experience	\$ 3,245,138	\$ 3,909,212
Changes in assumptions	10,566,758	4,527,501
Net difference between projected and actual earnings on pension plan investments	-	2,932,402
Employer contributions to the plan subsequent to the measurement date	75,158	-
<b>Total</b>	<b>\$ 13,887,054</b>	<b>\$ 11,369,115</b>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows (note that employer contributions subsequent to the measurement date will reduce the net pension liability and, therefore, will not be included in future pension expense):

Years Ending April 30		Amount
2023	\$	1,633,823
2024		1,534,636
2025		(375,453)
2026		796,552
2027		(447,501)
<b>Total</b>	<b>\$</b>	<b>3,142,057</b>

***Actuarial Assumptions***

The total pension liability in each actuarial valuation was determined using the following actuarial assumptions applied to all periods included in the measurement:

	<b>IMRF Regular Plan</b>	<b>IMRF SLEP</b>	<b>Police Pension Plan</b>	<b>Firefighters' Pension Plan</b>
Inflation	2.25%	2.25%	2.50%	2.25%
Salary increases (including inflation)	2.85%-13.75%	2.85%-13.75%	3.75% - 20.82%	3.75% - 16.43%
Investment rate of return (net of investment expenses)	7.25%	7.25%	7.25%	6.50%
Mortality rates	See (1) below	See (1) below	See (2) below	See (2) below

**Village of Franklin Park, Illinois**  
**Notes to the Financial Statements**  
**April 30, 2022**  
**(Continued)**

**Note 10 - Pension Plans (Continued)**

(1) The mortality tables used for both the IMRF Regular Plan and the IMRF SLEP were Pub-2010 amount weighted, below-median income, general, disabled retiree, male and female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.

(2) Mortality rates for both the Police Pension and Firefighters' Pension plans were based on the assumption study prepared by Lauterbach & Amen, LLP in 2022. The respective tables combine observed experience of Illinois police officers (for Police Pension Plan mortality rate) and Illinois firefighters (for Firefighters' Pension Plan mortality rate) with the PubS-2010(A) Study with Blue Collar Adjustment improved generationally using MP-2019 improvement rates.

***Discount Rate***

As shown below, the discount rate used to measure the total pension liability was determined after considering a projection of the cash flows to determine whether the future contributions (made at the current contribution rates) will be sufficient to allow the pension plans' fiduciary net position to make all projected future benefit payments of current active and inactive employees:

	<b>IMRF Regular Plan</b>	<b>IMRF SLEP</b>	<b>Police Pension Plan</b>	<b>Firefighters' Pension Plan</b>
Assumed investment rate of return	7.25%	7.25%	6.5%	6.5%
Are contributions expected to be sufficient to allow fiduciary net position to pay future benefits?	Yes	Yes	No	No
Discount rate used to measure total pension liability	7.25%	7.25%	5.15%	5.64%

***Investment Rate of Return***

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of geometric or arithmetic real rates of return as of the December 31, 2021 (IMRF Regular Plan and IMRF SLEP) or April 30, 2022 (Police Pension Plan and Firefighters' Pension Plan) measurement dates for each major asset class included in the pension plan's target asset allocation, as disclosed in the investment footnote, are summarized in the following tables:

**IMRF Regular Plan and IMRF SLEP**

<b>Asset Class</b>	<b>Target Allocation</b>	<b>Long-term Expected Real Rate of Return</b>
Domestic equity	37.00 %	5.00 %
International equity	18.00 %	6.00 %
Fixed income	28.00 %	1.30 %
Real estate	9.00 %	6.20 %
Alternatives	7.00 %	6.95 %
Cash or cash equivalents	1.00 %	0.70 %

**Village of Franklin Park, Illinois**  
**Notes to the Financial Statements**  
**April 30, 2022**  
**(Continued)**

**Note 10 - Pension Plans (Continued)**

**Police Pension Plan**

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-term Expected Real Rate of Return</u>
Fixed income	33.00 %	3.10 %
Domestic equity	41.00 %	5.55 %
International equity	16.00 %	7.20 %
Real estate	8.00 %	6.00 %
Cash or cash equivalents	2.00 %	1.60 %

**Firefighters' Pension Plan**

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-term Expected Real Rate of Return</u>
Fixed income	35.00 %	4.10 %
Domestic equity	35.00 %	7.80 %
International equity	20.00 %	8.30 %
Real estate	10.00 %	7.50 %
Cash or cash equivalents	0.00%	2.10 %

***Sensitivity of the Net Pension (Asset) Liability to Changes in the Discount Rate***

The following presents the net pension (asset) liability of the Village, calculated using the discount rates of 7.25, 7.25, 5.15, and 5.64 percent for the IMRF Regular Plan, IMRF SLEP, Police Pension Plan, and Firefighters' Pension Plan, respectively, as well as what the Village's net pension (asset) liability would be if it were calculated using discount rates that are 1 percentage point lower or 1 percentage point higher than the current rates:

	<u>1 Percentage Point Decrease</u>	<u>Current Discount Rate</u>	<u>1 Percentage Point Increase</u>
Net pension asset of the IMRF Regular Plan	\$ (3,750,466)	\$ (6,699,464)	\$ (9,054,918)
Net pension asset of the IMRF SLEP	(92,671)	(92,671)	(92,671)
Net pension liability of the Police Pension Plan	70,570,000	56,636,102	45,403,600
Net pension liability of the Firefighters' Pension Plan	50,798,100	39,013,089	31,733,084
<b>Total</b>	<b>\$ 117,524,963</b>	<b>\$ 88,857,056</b>	<b>\$ 67,989,095</b>

**Village of Franklin Park, Illinois**  
**Notes to the Financial Statements**  
**April 30, 2022**  
**(Continued)**

**Note 10 - Pension Plans (Continued)**

***Assumption Changes***

**IMRF Regular Plan and IMRF SLEP**

The inflation rate was updated to 7.25 percent from 7.50 percent.

The mortality tables were updated from IMRF-specific tables for nondisabled retirees, disabled retirees, and actives used with fully generational projection scale MP-2020 (base year 2015). The IMRF-specific rates were based on the RP-2020 Blue Collar Health Annuitant, Disabled Retirees, and Employee mortality tables, respectively, to Pub-2010 mortality tables as described in the actuarial assumptions paragraph above.

The salary increases were lowered from 3.35 - 14.25 percent to 2.85 - 13.75 percent.

**Police Pension Plan**

The discount rate used in determination of the net pension liability was changed from 5.15 to 5.32 percent. The rate is based on a combination of the expected long-term rate of return on plan investments and the municipal bond rate.

The mortality tables were updated to the current PubS-2010(A) tables using MP-2019 Improvement Rates as a result of a 2020 experience study.

The assumed rate on High Quality 20 Year Tax-Exempt General Obligation Bonds was changed from 2.27 percent to 3.21 percent for the current year. The rate has been updated to the current fiscal year end based on changes in market conditions, as reflected in the index.

**Firefighters' Pension Fund**

The discount rate used in determination of the net pension liability was changed from 5.64 to 5.92 percent. The rate is based on a combination of the expected long-term rate of return on plan investments and the municipal bond rate.

The mortality tables were updated to the current PubS-2010(A) tables using MP-2019 Improvement Rates as a result of a 2020 experience study.

The assumed rate on High Quality 20 Year Tax-Exempt General Obligation Bonds was changed from 2.27 percent to 3.21 percent for the current year. The rate has been updated to the current fiscal year end based on changes in market conditions as reflected in the index.

2026	-	-	1,145,801	(349,249)	796,552
2027	-	-	(249,704)	(197,797)	(447,501)
<b>Total</b>	<b>\$ (3,193,742)</b>	<b>\$ (9,344)</b>	<b>\$ 5,113,456</b>	<b>\$ 1,231,687</b>	<b>\$ 3,142,057</b>

**Note 12 - Risk Management**

The Village is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries (workers' compensation), as well as medical benefits provided to employees. The Village has purchased commercial insurance from private insurance companies for claims. Settled claims relating to the commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years. In addition, the Village is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the village attorney, the resolution of these matters will not have a material adverse effect on the financial statements of the Village.

**Village of Franklin Park, Illinois**  
**Notes to the Financial Statements**  
**April 30, 2022**  
**(Continued)**

**Note 13 - Tax Increment Revenue Pledged**

The Village has pledged a portion of future property tax revenue to repay property tax increment bonds issued to finance the refurbishing of various properties in the Village's TIF districts. The bonds are payable solely from the incremental property taxes generated by increased development in the refurbished districts and include the Village's noncommitment debt. Incremental property taxes were projected to produce 100 percent of the debt service requirements over the life of the bonds. For the current year, principal and interest paid and total incremental property tax revenue were \$1,343,239 and \$5,162,612, respectively.

**Note 14 - Tax Abatements**

There are no significant abatements made by other governments that reduce the Village's tax revenue.

**Note 15 - Joint Venture**

During a previous year, the Village entered into an agreement with four other villages to create the Proviso-Leyden Joint 9-1-1 Authority (the "Authority") to provide for the equipment, services, personnel facilities, and other items necessary for the implementation, operation, maintenance, and repayment of a 9-1-1 Emergency Telephone System within portions of Cook County, Illinois. The Authority was entered into in accordance with the Intergovernmental Cooperation Act (5 ILCS 220/1 et seq.) and the Emergency Telephone System Act (50 ILCS 750/1 et seq.). The Village appoints two voting members to the Authority board, which governs the functions and operations of the Authority. All 9-1-1 surcharge receipts from the Village and other participating villages are deposited in the Authority's Surcharge Fund. The Village made an initial investment in the Authority of approximately \$83,500. Each participating village in the Authority has a surcharge fund that tracks the associated revenue and expenses of each village and represents each village's equity interest in the Authority. As of April 30, 2022, the Village's equity interest was \$521,435.

**Note 16 - Other Postemployment Benefit Plan**

***Plan Description***

The Village provides full health care insurance for its eligible retired employees until age 65. Employees under IMRF who were enrolled in IMRF prior to January 1, 2011 must be at least 55 years old, have at least 8 years of credited service, and no longer work in a position that qualifies for participation in IMRF. Employees under IMRF who were enrolled in IMRF on or after January 1, 2011 must be at least 62 years old, have at least 10 years of credited service, and no longer work in a position that qualifies for participation in IMRF. Employees under the Police Pension Fund and Firefighters' Pension Fund hired prior to January 1, 2011 must be at least 50 years old and have at least 20 years of credited service. Employees under the Police Pension Fund and Firefighters' Pension Fund hired on or after January 1, 2011 must be at least 55 years old and have at least 10 years of credited service. This is a single-employer defined benefit plan administered by the Village. The benefits are provided under collective bargaining agreements. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASS 75.

***Benefits Provided***

The Village pays 40 percent of the premium charged for retiree-only or family coverage for IMRF employees. The Village pays 50 percent of the premium charged for retiree-only or family coverage for Firefighters' Pension Fund and Police Pension Fund employees.

**Village of Franklin Park, Illinois  
Notes to the Financial Statements  
April 30, 2022  
(Continued)**

**Note 16 - Other Postemployment Benefit Plan (Continued)**

***Employees Covered by Benefit Terms***

The following members were covered by the benefit terms:

	<b>Village of Franklin Park Postretirement Health Plan</b>
	May 1, 2022
Date of member count	
Inactive plan member or beneficiaries currently receiving benefits	43
Active plan members	140
<b>Total plan members</b>	<b>183</b>

***Contributions***

Retiree health care costs are paid by the Village on a pay-as-you-go basis. The Village has no obligation to make contributions in advance of when the insurance premiums are due for payment. For the fiscal year ended April 30, 2022, the Village made payments for postemployment health benefit premiums of \$728,628.

***Total OPEB Liability***

The April 30, 2022 total OPEB liability was determined by an actuarial valuation performed as of May 1, 2021 which used update procedures to roll forward the estimated liability to April 30, 2022.

Changes in the total OPEB liability during the measurement year were as follows:

<b>Changes in Total OPEB Liability</b>	<b>Total OPEB Liability</b>
Balance as of May 1, 2021	\$ <u>26,017,399</u>
Changes for the year:	
Service cost	1,194,663
Interest	469,451
Changes in assumptions and other inputs	(5,212,460)
Benefit payments, including refunds	(728,628)
Net changes	(4,276,973)
<b>Balance as of April 30, 2022</b>	<b>\$ 21,740,426</b>

**Village of Franklin Park, Illinois**  
**Notes to the Financial Statements**  
**April 30, 2022**  
**(Continued)**

**Note 16 - Other Postemployment Benefit Plan (Continued)**

**OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB**

For the year ended April 30, 2022, the Village recognized OPEB income of \$ (1,097,247).

On April 30, 2022, the Village reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Difference between expected and actual experience \$	3,362,219	\$ (608,011)
Changes in assumptions	-	(6,009,716)
<b>Total</b>	<b>\$ 3,362,219</b>	<b>\$ (6,617,727)</b>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

<b>Years Ending April 30</b>		<b>Amount</b>
2023	\$	466,739
2024		466,739
2025		466,739
2026		466,739
2027		466,739
Thereafter		921,814
<b>Total</b>	<b>\$</b>	<b>3,255,509</b>

**Actuarial Assumptions**

Per the 2022 re-evaluation letter, the actuaries deemed no significant changes to the following assumptions were warranted. The total OPEB liability as of the April 30, 2022 measurement date was determined using an inflation assumption of 3 percent; assumed salary increases (including inflation) of 3.5 percent; a discount rate of 1.83 percent; a medical HMO IL and PPO health care cost trend rate of 5.5 percent for 2020 varying year over year with an ultimate rate of 5 percent in 2030; dental HMO health care cost trend rate of 1.5 percent in 2020 (constant for all years); dental PPO health care cost trend rate of 2.0 percent in 2020 (constant for all years) ; and the same mortality tables used in the 2020 IMRF valuation, which were Pub-2010, amount- weighted, below-median income, general, disabled retiree, male and female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020. These assumptions were applied to all periods included in the measurement.

**Discount Rate**

The discount rate used to measure the total OPEB liability was 1.83 percent. The discount rate was based on S&P Municipal Bond 20-Year High-Grade Rate Index.

**Village of Franklin Park, Illinois**  
**Notes to the Financial Statements**  
**April 30, 2022**  
**(Continued)**

**Note 16 - Other Postemployment Benefit Plan (Continued)**

***Sensitivity of the Total OPEB Liability to Changes in the Discount Rate***

The following presents the total OPEB liability of the Village, calculated using the discount rate of 1.83 percent, as well as what the Village's total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

	<b>1 Percentage Point Decrease (0.83%)</b>	<b>Current Discount Rate (1.83%)</b>	<b>1 Percentage Point Increase (2.83%)</b>
Total OPEB liability of the Village of Franklin Park Postretirement Health Plan	\$ 23,965,370	\$ 21,740,426	\$ 19,800,051

***Sensitivity of the Total OPEB Liability to Changes in the Health Care Cost Trend Rate***

The following presents the total OPEB liability of the Village, calculated using the health care cost trend rates assumed in the valuation, as well as what the Village's total OPEB liability would be if it were calculated using a health care cost trend rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

	<b>1 Percentage Point Decrease (0.83%)</b>	<b>Current Discount Rate (1.83%)</b>	<b>1 Percentage Point Increase (2.83%)</b>
Total OPEB liability of the Village of Franklin Park Postretirement Health Plan	\$ 19,377,683	\$ 21,740,426	\$ 24,558,5

***Assumption Changes***

Per the 2022 re-evaluation letter, the actuaries deemed no significant changes to the following assumptions were warranted. The discount rate used to measure the total OPEB liability was decreased from 2.85 percent for April 30, 2020 to 1.83 percent for April 30, 2021. In addition, mortality tables were updated to Pub-2010, amount-weighted, below-median income, general, disabled retiree, male and female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.

**Note 17 - Subsequent Events**

Management has evaluated subsequent events through August 16, 2024; the date financial statements were available to be issued.

Notes to Schedule of Village Contributions - Illinois Municipal Retirement Fund Regular Plan

Actuarial valuation information relative to the determination of contributions:

Valuation date	Actuarially determined contribution rates are calculated as of December 31 each year, which is 16 months prior to the beginning of the fiscal year in which contributions are reported.
Methods and assumptions used to determine contribution rates:	
Actuarial cost method	Aggregate entry age normal
Amortization method	Level percentage of payroll, closed
Remaining amortization period	Non-Taxing bodies: 10-year rolling
Asset valuation method	5-year smoothed market; 20 percent corridor
Inflation	2.50 percent
Salary increase	3.35 percent to 14.25 percent, including inflation
Investment rate of return	7.25 percent
Retirement age	Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the 2017 valuation pursuant to an experience study of the period 2014-2016.
Mortality	IMRF-specific tables for nondisabled retirees, disabled retirees, and actives used with fully generational projection scale MP-201 (base year 2015). The IMRF-specific rates were based on the RP-2014 Blue Collar Health Annuitant , Disabled Retirees , and Employee mortality tables, respectively, with adjustments to match current IMRF experience

Notes to Schedule of Village Contributions - Police Pension Fund

Actuarial valuation information relative to the determination of contributions:

Valuation date Actuarially determined contribution rates are calculated as of December 31 each year, which is 16 months prior to the beginning of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Entry age normal
Amortization method	3.00 percent increasing payments
Remaining amortization period	100 percent funded over 25.55
Asset valuation method	5-year smoothed market
Inflation	2.25 percent
Salary increase	3.50 to 20.82 percent, including inflation
Investment rate of return	6.50 percent
Retirement age	See notes to financial statements
Mortality	Mortality rates were based on the assumption study prepared by Lauterbach & Amen, LLP in 2021. The respective tables combine observed experience of Illinois police officers (for Police Pension Plan mortality rate) and Illinois firefighters (for Firefighters' Pension Plan mortality rate) with the PubS-2010(A) Study with Blue Collar Adjustment improved generationally using MP-2019 improvement rates.

Notes to Schedule of Village Contributions - Firefighters' Pension Fund

Actuarial valuation information relative to the determination of contributions:

Valuation date Actuarially determined contribution rates are calculated as of April 30, two years prior to the end of the fiscal year in which the contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Entry age normal
Amortization method	Level percent of pay (closed)
Remaining amortization period	100 percent funded over 20 years
Asset valuation method	5-year smoothed market
Inflation	2.25 percent
Salary increase	3.50 to 16.18 percent, including inflation
Investment rate of return	6.50 percent
Retirement age	See notes to financial statements
Mortality	Mortality rates were based on the assumption study prepared by Lauterbach & Amen, LLP in 2021. The respective tables combine observed experience of Illinois police officers (for Police Pension Plan mortality rate) and Illinois firefighters (for Firefighters' Pension Plan mortality rate) with the PubS-2010(A) Study with Blue Collar Adjustment improved generationally using MP-2019 improvement rates.

Notes to Schedule of Contributions

Actuarial valuation information relative to the determination of contributions:

Valuation date Actuarially determined contribution rates are calculated as of April 30, one year prior to the end of the fiscal year in which the contributions are

Actuarial cost method	Entry age
Amortization method	N/A
Remaining amortization period	N/A
Asset valuation method	N/A
Inflation	3 percent
Health care cost trend rates	5.5 percent for 2019 varying year over year with an ultimate rate of 5 percent for 2030
Salary increase	3.5 percent
Investment rate of return	N/A
Retirement age	Varies depending on collective bargaining group and gender
Mortality	Firefighter Employees and Retirees: RP-2014 Mortality with Blue Collar Adjustment Improved Generationally using MP-2016 Improvement Rates. Police Employees and Retirees: RP-2014 Mortality with Blue Collar Adjustment Improved Generationally using MP-2016 Improvement Rates. IMRF Employees: IMRF Specific tables for nondisabled retirees, disabled retirees, and actives used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were based on the RP-2014 Blue Collar Health Annuitant, Disabled Retirees, and Employee mortality tables, respectively, with adjustments to match current IMRF experience.

**Village of Franklin Park, Illinois**  
**Notes to the Required Supplementary Information**  
**April 30, 2022**

***Budgetary Information***

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the General Corporate Fund and all special revenue funds. All annual appropriations lapse at fiscal year-end. The Village follows these procedures in establishing the budgetary data reflected in the financial statements:

The comptroller submits to the board of trustees a proposed operating budget for the fiscal year. The operating budget includes proposed expenditures and the means of financing them.

Budget hearings are conducted.

The budget is legally enacted through passage of an ordinance.

Budgets are adopted for all funds with the exception of the following funds: Foreign Fire Insurance Premium Tax Fund, Police Department 1505 Fund, 911 Emergency Surcharge Tax Fund, Belmont/River TIF Fund, Waveland/Mannheim TIF Fund, Tollway Fund, and Cullerton Ave Fund.

The budget may be amended by the board of trustees. The budget was not amended this year.

The budget document presents information by fund and function. The legal level of budgetary control adopted by the governing body is the fund level (i.e., the level at which expenditures may not legally exceed appropriations).

***Pension Information***

**Changes in Assumptions**

Significant changes in assumptions for the Village's pension plans are as follows:

*IMRF Regular Plan*

December 31, 2018 - The beginning of year total pension liability was based on a discount rate of 7.50 percent, and the end of year total pension liability was based on a discount rate of 7.25 percent.

December 31, 2020 - The beginning of year total pension liability was based on salary increases of 3.35 - 14.25 percent and RP-2014 mortality tables. The end of year total pension liability was based on salary increases of 2.85 - 13.75 percent and Pub-2010 mortality tables.

*Police Pension Fund*

April 30, 2016 - The demographic assumptions were changed during the year ended April 30, 2016. The changes were made to better reflect the future anticipated experience of the fund. The assumptions impacted included mortality rates, mortality improvement rates, retirement rates, disability rates, and termination rates.

April 30, 2017 - The beginning of year total pension liability was based on a discount rate of 6.75 percent, and the end of year total pension liability was based on a discount rate of 6.03 percent.

April 30, 2018 - The beginning of year total pension liability was based on a discount rate of 6.03 percent, and the end of year total pension liability was based on a discount rate of 5.73 percent.

April 30, 2019 - The beginning of year total pension liability was based on a discount rate of 5.73 percent, and the end of year total pension liability was based on a discount rate of 5.59 percent.

April 30, 2020 - The beginning of year total pension liability was based on a discount rate of 5.59 percent, and the end of year total pension liability was based on a discount rate of 5.14 percent.

April 30, 2021 - The beginning of year total pension liability was based on a discount rate of 5.64 percent, and the end of year total pension liability was based on a discount rate of 5.15 percent.

April 30, 2022 - The beginning of year total pension liability was based on a discount rate of 5.15 percent, and the end of year total pension liability was based on a discount rate of 5.32 percent.

**Village of Franklin Park, Illinois**  
**Notes to the Required Supplementary Information**  
**April 30, 2022**

*Firefighters' Pension Fund*

April 30, 2016 - The demographic assumptions were changed during the year ended April 30, 2016. The changes were made to better reflect the future anticipated experience of the fund. The assumptions impacted included: mortality rates, mortality improvement rates, retirement rates, disability rates, and termination rates.

April 30, 2017 - The beginning of year total pension liability was based on a discount rate of 6.41 percent, and the end of year total pension liability was based on a discount rate of 6.91 percent.

April 30, 2018 - The beginning of year total pension liability was based on a discount rate of 6.91 percent, and the end of year total pension liability was based on a discount rate of 6.57 percent.

April 30, 2019 - The beginning of year total pension liability was based on a discount rate of 6.57 percent, and the end of year total pension liability was based on a discount rate of 5.97 percent.

April 30, 2020 - The beginning of year total pension liability was based on a discount rate of 5.97 percent, and the end of year total pension liability was based on a discount rate of 5.57 percent.

April 30, 2021 - The beginning of year total pension liability was based on a discount rate of 5.57 percent, and the end of year total pension liability was based on a discount rate of 5.64 percent.

April 30, 2022 - The beginning of year total pension liability was based on a discount rate of 5.64 percent, and the end of year total pension liability was based on a discount rate of 5.92 percent.

***OPEB Information***

**Changes in Assumptions**

April 30, 2019 - The beginning of year total OPES liability was based on a discount rate of 3.63 percent, and the end of year total OPES liability was based on a discount rate of 3.21 percent.

April 30, 2020 - The beginning of year total OPES liability was based on a discount rate of 3.21 percent, and the end of year total OPES liability was based on a discount rate of 2.85 percent.

April 30, 2021 - The beginning of year total OPES liability was based on a discount rate of 2.85 percent and RP-2014 mortality tables, and the end of year total OPES liability was based on a discount rate of 1.83 percent and Pub-2010 mortality tables.

Statistical Section

# Statistical Section

This part of the annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Village's overall financial health

The statistical section is organized into the following main categories:

## Financial trends

These schedules contain trend information to help the reader understand how the Village's financial performance and well-being have changed over time.

## Revenue capacity

These schedules contain information to help the reader assess the Village's most significant revenue sources.

## Debt capacity

These schedules present information to help the reader assess the affordability of the Village's current level of outstanding debt and the Village's ability to issue additional debt in the future.

## Demographic and economic information

These schedules help the reader understand the environment within which the Village's financial activities take place.

## Operating information

These schedules contain service and infrastructure data to help the reader understand how the information in the Village's financial report relates to the services the Village provides and the activities it performs.

<b>Total Direct and Overlapping Debt</b>	<b>\$ 5,404,923,317</b>		<b>\$ 94,269,693</b>

*Overlapping debt was calculated by determining the percentage of each overlapping government's EAV located within the Village's boundaries versus the total EAV for each government (excluding railroad valuation and incremental TIF valuation), then applying that percentage to the debt outstanding.*

*(1) Cook County determines the degree of overlap on the basis of equalized assessed valuation (EAV)*

*(2) Excludes Principal of outstanding General Obligation Bonds and Debt Certificates which are expected to be paid from sources other than general taxation.*

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON  
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL  
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT  
AUDITING STANDARDS***

**INDEPENDENT AUDITOR'S REPORT**

To Management, the Honorable President and  
Members of the Board of Trustees  
Village of Franklin Park, Illinois

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Village of Franklin Park, Illinois (the Village) as of and for the year ended April 30, 2022, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements, and have issued our report thereon dated August 16, 2024. Our report includes a reference to other auditors who audited the financial statements of the Police Pension Fund and the Firefighters' Pension Fund, as described in our report on the Village's financial statements. The financial statements of the Police Pension Fund and the Firefighters' Pension fund were not audited in accordance with *Government Auditing Standards*, and, accordingly, this report does not include reporting on internal control over financial reporting or on instances of reportable noncompliance associated with the Police Pension Fund and the Firefighters' Pension Fund.

***Report on Internal Control over Financial Reporting***

In planning and performing our audit of the financial statements, we considered the Village's internal control over financial reporting (internal control) as a basis for designing procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control. Accordingly, we do not express an opinion on the effectiveness of the Village's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any

# McConnell Jones

deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

## ***Report on Compliance and Other Matters***

As part of obtaining reasonable assurance about whether the Village's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

*McConnell Jones LLP*

Houston, Texas
