

When should you use online doctor visits?

An MDLIVE online doctor visit is a great way to treat routine medical conditions. Fast, easy and convenient.

You're not feeling up to leaving home

You want to avoid the high cost of Urgent Care or the ER

You don't want to take time off work

Your doctor isn't available

It's hard to get to the doctor's office

It's after hours, the weekend or a holiday

You need a short-term refill on a prescription
