FREQUENTLY ASKED QUESTIONS

- Why should I participate? Early detection is one of your best front line defenses to treat most problems earlier and with greater success- improving healing and recovery, and minimizing avoidable complications and costs. Your early detection efforts can also help you measure your current health, and identify controllable risks and ways to improve your health.
- Is the screening confidential? YES. HMI complies with all current HIPAA requirements, ensuring each individual's confidentiality. Your employer does not receive any information pertaining to your personal tests and has no access to your personal information.
- How will I receive my results? You will have access to your results at myhmihealth.com within 3-5 days after the screening. You will also receive a results packet in the mail within 2 weeks of the screening.
