

FREE FLU SHOTS

Dear Neighbors,

As the weather cools down and we are well into fall, I wanted to make sure you had the opportunity to get a flu shot before we head too far into the flu season.

The CDC says that flu season peaks between December and February, and as long as flu viruses are circulating, it is not too late to get vaccinated. Since it takes about two weeks for the flu shot to take effect, now is the perfect time to get your shot if you haven't already.

I'll be hosting an event that will offer free flu shots at the Norwood Park Fieldhouse on November 16 from 4-7pm. The State Treasurer's office will also be on hand with information and I-CASH, a program that connects residents with their unclaimed property. Hope to see you there!

Sincerely,

Senator John G. Mulroe
